[360 Housekeeping Training - SS360_01E](#)

Price: \$245.00

This is 360 video training! If you are wearing V.R. Goggles, look around! If you are using a computer or laptop, simply click and hold on the video, then drag the screen to where you want to look. Using a cell phone or tablet? Even better! Once full screen you can simply move your phone or tablet to look around. You can also tap, hold and drag the screen to look around as well. Enjoy this immersive experience.

[360 Restaurant Kitchen Training - SS360_02E](#)

Price: \$245.00

This training will help you identify common hazards found in the kitchen.

Agricultural Training

[Combustible Dust Awareness - AP4289E](#)

Price: \$245.00

Combustible dust hazards exist in a wide variety of industries: grain handling, food processing, plastics, wood and paper products, textiles, pharmaceuticals, and metal fabrication, among many others. In fact, OSHA has identified over 13 products or materials that can present combustible dust hazards. In the last 3 years, over 16 workers have been killed and more than 85 seriously injured in combustible dust explosions. The average cost of a major dust explosion in property damage alone is over \$3,5,. Your first line of defense against a dust explosion is awareness. This safety video provides workers with a general awareness of how combustible dust explosion are caused and what they can do to recognize and mitigate possible hazards before it????s too late.

[Combustible Dust Awareness - Spanish- AP4289S](#)

[Fall Protection: Fixed Ladders, Catwalks & Stairs - SS16025AE \(8 min.\)](#)

Price: \$245.00

This program examines potential fall hazards when working at a grain elevator. The primary concerns are fixed ladders, stairs and catwalks. The program outlines the potential hazards associated with these 3 types of access/egress and shows ways these hazards can be reduced or eliminated. Proper inspection procedures along with safe rules of use are presented in a concise, to the point manner.

[Heat Stress: Facts and Prevention - SS1007IE](#)

Price: \$245.00

Heat Illness...it can happen to just about anybody working in hot or humid conditions. It can be serious. It can be fatal. But, it' doesn't have to be. A few simple, easy to do steps can mean the difference between just another day at work and a serious medical emergency. This video outlines these steps in an easy to understand manner.

[Heat Stress: The Facts - SS1007IS \(12 min.\) SPANISH](#)

Price: \$245.00

More illnesses are surfacing from employees working in abnormally high temperatures, such as in a hot warehouse or warm assembly environment. This video discusses heat stroke, heat stress, fainting, and precautions to take when working in a hot environment.

[Packing House Safety - SS16032AE \(18 mins.\)](#)

Price: \$245.00

Employees working in a packing house have a wide variety of jobs that need to be done during the season, and many safety hazards to learn about. There are basic rules and procedures that all packing house personnel must learn. This program covers warning signs and tags, lockout/tagout and machine guarding, safe lifting, workspace ergonomics, housekeeping, forklift safety and traffic control, electrical safety, chemical safety, emergency response and more....

[Pesticide Container Labels - SS16033AS \(6 Min.\) Spanish](#)

In the Agricultural industry, working with and around Pesticides is a fact of life for the employees. Safety with Pesticides is a serious concern, because while they provide real benefits to our farmers, they can be very dangerous if mishandled or misused. This video will help you recognize hazards associated with pesticides.

[Pesticide Safety: The Basics - SS16031AE \(5 mins\)](#)

Price: \$245.00

Employee Training is extremely important when it comes to using pesticides. Workers are protected under the Worker Protection Standard and the Hazard Communication Standard regarding hazardous substances in the workplace. Any agricultural worker must be trained in Basic Pesticide Safety rules before entering a pesticide treated area.

[Pesticides Safety Training - SS16030AE \(6 mins\)](#)

Price: \$245.00

Pesticides: Safety Training - Both the Worker Protection Standard and the Hazard Communication Standard mandate training for all Agricultural employees that come in contact with Pesticides. This training is required for Handlers, Early Entry Workers, and all other agriculture workers before they acquire five separate days of entry into pesticide treated areas after the REI expires

[Respiratory Protection: The Facts - SS1030BE \(17 mins\)](#)

Price: \$245.00

Sometimes it is difficult to respect a hazard you can't see or one that may take years to affect you. Respirators can provide protection, but only if they are worn and used properly. Respiratory Protection creates an awareness and respect for the hazards by demonstrating with highly effective graphics how the respiratory system works and the effects of different airborne hazards. The program covers proper use, care and maintenance of air-purifying respirators and the importance of proper selection and fit. Respiratory Protection will educate and motivate your worker on when and how to properly use their air-purifying respirator.

Tractor Hand Signals - SS16029AE (4 mins)

Price: \$245.00

Hand signals to effectively communicate with tractor operators.

Tractor Safety - SS16028AE

Price: \$245.00

This video outlines all the basic skills to safely operate a tractor.

Working Safely Around Rail Cars - SS16027AE (9 min.)

Price: \$245.00

A train is a powerful machine that needs to be respected. Working around trains requires constant vigilance and attention to safety. This program is a great way to raise awareness and explain potential rail yard hazards to employees working in this environment, whether working atop trains, near tracks or any where near a train in your facility. One small mistake near a train can have grave consequences. This program is a great tool to help minimize this risk.

Working Safely Around Rail Cars - SS16027AS (9 min.) Spanish

Aviation Safety Series

[Aviation Dangerous Goods - SS4002AS Spanish](#)

Price: \$245.00

Flight attendants have a lot of responsibilities. But, the primary objective of the Flight Attendant job is safety. Safety requires knowledge that comes from both training and experience. In this program we examine a typical business aviation Flight Attendant trip with emphasis on safety awareness.

[Aviation Dangerous Goods - SS4002AE \(17 min.\)](#)

Price: \$245.00

Dangerous goods, restricted articles, hazardous materials, dangerous cargo...they are all different names for the same thing...items that may endanger the safety of an aircraft or persons on board the aircraft. Common items such as batteries, dry ice and others are discussed as well as what can and cannot be taken aboard the aircraft, what can only be taken on as a carry-on item and what can only be stowed as baggage.

[Aviation Flight Attendant Safety - SS4001AS Spanish](#)

Back Injury Prevention

[Back Injury: Exercise And Ergonomics - SS1016DS \(15 min.\) SPANISH](#)

Price: \$245.00

They say you never notice the parts of your body until they hurt. This video stresses the importance of back safety and discusses not only the risk involved in everyday body movement, but also the ways to prevent those risks from turning into debilitating injuries. The presentation stresses a proactive approach including proper health through exercise and ergonomics. Information is offered on how to properly move through each day without adding undue strain and stress on the body. Viewers will be shown a range of basic stretches as well as other methods and tips for safe and healthy movement.

[Back Injury: Exercise And Ergonomics - SS1016DE \(16 mins\)](#)

[Back Safety: Proper Lifting Procedures - SS1015DE \(16 min.\)](#)

Price: \$245.00

Back injuries frequently occur in the workplace during lifting. The tips and techniques provided in this video will offer alternatives to lifting or carrying and will show the benefits of using helpful tools like dollies and carts to prevent back injuries. Viewers will learn the necessary step-by-step safety procedures to prepare the body for safe lifting as well as instruction on how to properly lift under any circumstances.

[Back Safety: Proper Lifting Procedures - SS1015DS \(16 min.\) SPANISH](#)

[Back Safety: The Basics - SS1014DE \(11 min.\)](#)

Price: \$245.00

Video Catalog

Back injuries caused by improper lifting are the most common disabling injuries in the workplace. A person can injure their back in virtually any type of occupation, often to the point they can no longer work in their chosen field, along with having a devastating impact on their overall quality of life. Many of the causes of back injury can be prevented by teaching employees how the back operates and the basics of proper lifting techniques. This video does just that. Great for new or experienced employees.

[Move It Safely: Avoiding Injury While Moving Materials - E4741E](#)

Price: \$245.00

Two of the main causes of injuries to material handling workers are attempting to show off to their co-workers and not wanting to take time to get the proper equipment or ask for help. This leads to workers struggling to lift and carry materials which are too heavy to be moved safely. In order to move objects safely, employees must be well trained in safe material handling techniques while also maintaining the proper attitude and state of mind to use their training each time they lift or move an object. This program discusses the techniques, precautions and safe work practices employees should follow so that when an object must be moved, they can "move it safely." Topics include preparing to move a load, manual lifting techniques, use of hand trucks, carts and dollies and handling pallets safely.

[To The Point About Back Safety Training Video - ETP11](#)

Price: \$245.00

Our workplace is full of hazards, hazards that can hurt us or kill us. Controlling these hazards

Video Catalog

and preventing injuries is the point of our safety and health program. One such hazard is the risk of suffering a back injury due to improper lifting or poor posture. Practicing safe lifting techniques and maintaining neutral posture can prevent injuries. That is the point of our facility's efforts to prevent back injuries and that is the point of this program. So, pay close attention as we get to the point about preventing back injuries. Topics include how the components of the back work, how back pain and injuries occur, proper lifting techniques, maintaining a neutral posture and responding to back pain.

Chemical Safety

[Anhydrous Ammonia Safety - SS1012FE \(18 min\)](#)

Price: \$245.00

This video teaches employees how to make a systematic evaluation of the entire ammonia system, determine if possible problem areas exist and make sure the ammonia system at your facility remains under control. Viewers will learn how to gather process safety data, as well as understand and evaluate process flow and piping/instrumentation diagrams.

[Asbestos Awareness in the Workplace - M19022E](#)

Price: \$245.00

"Asbestos Awareness" provides employees with this important information, and also helps employers comply with the training requirements of the OSHA Asbestos Standard. Topics covered in these products include: Asbestos: "miracle" and menace. The health effects of asbestos. Thermal system insulation. Surfacing materials, floor and ceiling tiles. Protective equipment and safe work practices. Decontamination and medical surveillance. and more.

[Dealing with Hazardous Spills - M281S](#)

Price: \$245.00

Hazardous materials are a part of many work situations. They can be found in many different types of facilities and on many job sites... from manufacturing and construction to retail and office environments. Some organizations have to deal with hazardous materials as part of their daily business, and have detailed plans and highly trained workers to handle a sudden spill. But other facilities only have to handle these materials infrequently, and may not have given much thought to what must be done in case of a spill. MARCOM's training products on "Dealing With Hazardous Spills" are designed to help employees who seldom have to face the dangers of a hazardous spill deal with a cleanup situation. All of the products... the new "Micro-Learning" and full-length online courses as well as the DVDs and interactive CD courses... discuss topics that are integral to employees' understanding of these issues. Topics covered in these products include: The Hazard Communication Plan. The Emergency Response Plan. Five levels of OSHA's HAZMAT training. Initial spill response. Spill containment. Instruments used to identify chemicals involved in a spill. Additional hazards of a spill site. and more.

DOT HAZMAT General Awareness - M173E (20 mins.)

Price: \$245.00

DOT HAZMAT General Awareness focuses on employees who handle as well as transport hazardous materials. The course reviews a number of topics aimed at making employees more aware of situations in which they may encounter hazardous chemicals... and the nature of the hazards associated with the chemicals. Created specifically for the Department of Transportation's HAZMAT training regulation on Handling and Transporting Hazardous Materials, this course provides the information necessary to comply with the regulation's General Awareness training requirement. (While this course can be used by itself, it can also be used as a companion product to MARCOM's DOT HAZMAT Safety Training course). Areas covered in the course include the regulation itself, hazardous materials, definitions and classes, hazard communication, hazard indicators, such as labels, shipping papers and placards, where hazardous materials may be encountered, packaging and shipping, transport (trucks, ships, rail, etc.), storage, security issues and more.

[Handling Hazardous Materials - M180E](#)

Video Catalog

Price: \$245.00

Handling Hazardous Materials is designed to help facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). As part of these regulations, there are varying requirements for employee training, depending on an employee's specific level of involvement with hazardous materials. Hazardous materials and waste are part of many work situations, and can be found on many types of job sites. It is so important that employees know how to recognize these potentially dangerous substances, as well as how to handle and dispose of them properly, that OSHA mandates that anyone working with these substances receive comprehensive training in this area. The course is designed to explain the regulations and to help employees begin to reduce or eliminate potential exposure to Hazardous Materials in their work environments. The course discusses the nature and behavior of hazardous chemicals, and how to reduce or eliminate potential exposure to hazardous materials in their work environments. Areas covered in the course include physical hazards, flammables/combustibles/explosives/oxidizers, corrosives and irritants, toxic substances and carcinogens, acute and chronic health effects, GHS container labels and SDSs, basic first aid for injuries caused by chemicals, emergency response, spillage / leakage / accident procedures, and more! This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

[Handling Hazardous Materials - M180S Spanish](#)

Price: \$245.00

Handling Hazardous Materials is designed to help facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). As part of these regulations, there are varying requirements for employee training, depending on an employee's specific level of involvement with hazardous materials. Hazardous materials and waste are part of many work situations, and can be found on many types of job sites. It is so important that employees know how to recognize these potentially dangerous substances, as well as how to handle and dispose of them properly, that OSHA mandates that anyone working with these substances receive comprehensive training in this area. The course is designed to explain the regulations and to help employees begin to reduce or eliminate potential exposure to Hazardous Materials in their work environments. The course discusses the nature and behavior of hazardous chemicals, and how to reduce or eliminate potential exposure to hazardous materials in their work environments. Areas covered in the course include physical hazards, flammables/combustibles/explosives/oxidizers, corrosives and irritants, toxic substances and carcinogens, acute and chronic health effects, GHS container labels and SDSs, basic first aid for injuries caused by chemicals, emergency response, spillage / leakage / accident procedures, and more! [Hazard Communication - SS1035AS \(18 min.\) SPANISH](#)

Price: \$245.00

In today's litigious society, we begin to take cautions, warnings and disclaimers from manufacturers' with a touch of skepticism or disregard. When it comes to hazardous chemicals in the work place, words, colors and symbols mean something. Not only is it your workers' right, it is their responsibility to know what they mean. This program will teach your

Video Catalog

employees to recognize and understand the different means of communication used to identify hazardous chemicals including the United Nation's new Globally Harmonized System. The training program will educate your workers on the physical characteristics and chemical properties communicated in the material safety data sheets and on the container labels enabling them to make proper decisions concerning the safe use handling and storage of the substances. The program covers the purpose and role of hazard communication, the different classification of chemicals and their hazards, the primary forms of communication, and best practices and procedures to ensure their safety and health. Chemicals are an intricate and valuable part of our life. When respected and handled properly, they pose minimum risk our safety and health. Knowledge is a valuable safety tool. Not only is it your workers' right to know, it is their responsibility to use it to protect their safety and that of their co-workers.

Hazard Communications - English - SS1035AE

Price: \$245.00

Hazardous Materials Labels - M210E

Price: \$245.00

Hazardous Materials Labels is designed to help employees understand the characteristics of different labeling systems and the ways that each convey information. By recognizing the differences and similarities of these systems, employees will be better prepared to work safely around hazardous materials. One important method for identifying hazardous materials is through the use of container labels. From bottles and drums to trucks and railcars, labels and placards provide information about the contents of a container, as well as what to do and who to call in case of an emergency. Because this information is so critical for the safe handling and transporting of these potentially dangerous substances, several organizations have developed labeling and placarding systems to communicate to employees about a container's contents. Areas covered in the course include OSHA's hazard communication standard, types of containers requiring labels, information required on labels, Department of Transportation (DOT) hazardous material classifications, DOT label and placard requirements, United Nations identification numbers, the Hazardous Materials Identification System (HMIS), the National

Video Catalog

Fire Prevention Association (NFPA) labeling system, hazardous waste labeling, and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

Hazardous Materials Labels - M210S SPANISH

Price: \$245.00

HazCom, the GHS & You - E1515E (14 min.)

Price: \$495.00

This brand new training program features four real-life scenarios that underscore the importance of being able to quickly obtain health, safety and hazard information related to hazardous chemicals and substances in the workplace. As mandated by OSHA, chemical safety data must be conveyed through the use of the standard communication elements found in the Globally Harmonized System for the Labeling and Classification of Chemicals, commonly called the GHS for short. The program explains each of these communication elements in detail so your employees will understand how chemical hazards are communicated and how to use this information to ensure their safety when storing, handling and using hazardous substances.

HazCom, the GHS & You - E1515S (14 min.) SPANISH

[Hazmat Security: DOT Requirements - SS13024AE \(13 min.\)](#)

Price: \$245.00

This program focuses on giving employees an awareness of the security risks associated with transporting hazardous materials. Areas covered in this program are: Security risks associated with transporting hazardous materials, Methods that have been designed to enhance transportation security, How to recognize security risks and Responding to possible security threats.

[Hazmat Security: DOT Requirements - SS13024AS \(13 min.\)](#)

Price: \$245.00

This program focuses on giving employees an awareness of the security risks associated with transporting hazardous materials. Areas covered in this program are: Security risks associated with transporting hazardous materials, Methods that have been designed to enhance transportation security, How to recognize security risks and Responding to possible security threats.

[HAZWOPER: Chemical Protective Clothing - SS1039F \(12 min.\)](#)

Price: \$245.00

Designed to explain the different types and limitations of protective clothing and the correct application of each type. Also discusses heat stress. Security risks associated with transporting hazardous materials, Methods that have been designed to enhance transportation security, How to recognize security risks and Responding to possible security threats.

[HAZWOPER: Donning/Doffing/Decontamination - SS1041F \(17 min.\)](#)

Price: \$245.00

Describes how to properly don chemical protective clothing, how to properly remove it and how to decontaminate clothing and personnel effectively. Security risks associated with transporting hazardous materials, Methods that have been designed to enhance transportation security, How to recognize security risks and Responding to possible security threats.

[HAZWOPER: Identifying Hazardous Materials - SS1036F \(15 min.\)](#)

Price: \$245.00

Designed to complement a variety of HAZWOPER applications. Includes definitions of TLV, TWA, TLV-C, methods of exposure, dust, fumes, gases and more. Security risks associated with transporting hazardous materials, Methods that have been designed to enhance transportation security, How to recognize security risks and Responding to possible security threats.

[HAZWOPER: Medical Surveillance Program - SS1037F \(14 min.\)](#)

Video Catalog

Price: \$245.00

Outlines what exactly is needed for a complete medical surveillance program including medical examinations, recordkeeping and other pertinent information.

HAZWOPER: On-Site Safety Considerations - SS1038F (14 min.)

Price: \$245.00

Overview of general safety and health plan requirements, incident characterization, remedial actions and how to create a comprehensive written plan. Explains site control issues, routine operations, medical care, evacuation and more.

HAZWOPER: Orientation - SS1035F (16 min.)

Price: \$245.00

The Basics of HAZWOPER requirements, laws and regulations. Provides minimum emergency plan requirements and identifies regulations applicable to HAZWOPER operations.

HAZWOPER: Respiratory Protection - SS1040F (24 min.)

Price: \$245.00

A vital part of effective HAZWOPER training. Basic training for selecting, using, handling and storing respirators. Proper fit-testing procedures are covered in detail.

HAZWOPER: Site Safety & Health Plan - SS1042F (18 min.)

Price: \$245.00

Overview of general safety and health plan requirements, incident characterization, remedial actions and how to create a comprehensive written plan. Explains site control issues, routine operations, medical care, evacuation and more.

Planning for Laboratory Emergencies - M19011E

Price: \$245.00

Planning for Laboratory Emergencies discusses how to minimize damage and prevent injuries if an emergency should occur. A caustic acid hose has just erupted...an experiment has shown unexpected reactions... what should employees do to deal with these and other emergencies? Employees need to know when and how they should act in an emergency situation. Areas covered in the course include the emergency plan, types of emergencies, alarms and warning systems, contacting outside agencies, evacuation, fires, explosions and chemical spills, and more.

Preventing Contamination in the Laboratory - M19009E English

Price: \$245.00

Preventing Contamination in the Laboratory emphasizes the need to recognize situations that could lead to contamination, and discusses what can be done to prevent contamination from occurring. Handling hazardous chemicals and specimens requires a great deal of caution. If

Video Catalog

substances are not properly controlled, hazards can spread and contaminate other materials, work areas... even employees. With many laboratories using toxic, corrosive and carcinogenic chemicals, employees need to do all that they can to prevent contamination. Areas covered in the course include how contamination occurs, general preventative measures, engineering controls, safe work practices, personal protective equipment, and more.

Process Safety: Hazard Analysis - SS1015FE (15 mins)

Price: \$245.00

This video program explains the various hazard analysis techniques which can show what could go wrong with your process and the possible consequences to your employees, the environment and the rest of the facility. It provides in-depth information on how to organize a process safety hazard analysis, including quality team assembly and analysis techniques.

Process Safety: Hazard Analysis - SS1015FS (15 mins) Spanish

Price: \$245.00

This video program explains the various hazard analysis techniques which can show what could go wrong with your process and the possible consequences to your employees, the environment and the rest of the facility. It provides in-depth information on how to organize a process safety hazard analysis, including quality team assembly and analysis techniques.

Process Safety: Information - SS1014FE (16 mins)

Price: \$245.00

This video program discusses the importance of various chemical data elements used in collecting process safety information, including toxicity information, permissible exposure limits, physical data, reactivity data, thermal and chemical stability data and the hazardous effects of inadvertently mixing different materials. Viewers will also learn the importance of gathering information that will tell them what will happen to chemicals, processes, equipment and containment systems in various situations, and how this information can help answer the "what if" scenarios and react to accidental releases of hazardous chemicals.

Process Safety: Information - SS1014FS (16 mins) Spanish

Price: \$245.00

This video program discusses the importance of various chemical data elements used in collecting process safety information, including toxicity information, permissible exposure limits, physical data, reactivity data, thermal and chemical stability data and the hazardous effects of inadvertently mixing different materials. Viewers will also learn the importance of gathering information that will tell them what will happen to chemicals, processes, equipment and containment systems in various situations, and how this information can help answer the "what if" scenarios and react to accidental releases of hazardous chemicals.

Process Safety: Intro - SS1013FE (12 mins)

Price: \$245.00

Video Catalog

This video introduces the technique of process safety management and its systematic evaluation of the elements which affect a hazardous chemical and its safe handling. This program will help you "sell" the concept of Process Safety Management to senior managers at your facility. It provides information about the specific requirements of the PSM Standard for personnel who will be taking part in gathering process safety analysis.

[Propane Safety - Fueling your Forklift - SS1032GE](#)

Price: \$245.00

This program focuses on the key fundamentals to safely handle propane tanks in relation with forklifts. From safe storage to switching out tanks, this program is a great f0r anyone that will be working with propane tanks and forklifts.

[Propane Safety - Fueling your Forklift - SS1032GS Spanish \(7 Min.\)](#)

Price: \$245.00

This program focuses on the key fundamentals to safely handle propane tanks in relation with forklifts. From safe storage to switching out tanks, this program is a great f0r anyone that will be working with propane tanks and forklifts.

[Safety Showers Eye Washes in the Laboratory - M19002E](#)

Video Catalog

Price: \$245.00

Safe Handling of Laboratory Glassware discusses the nature of various types of glassware, and the problems it can cause... as well as the need for employees to use and maintain laboratory glassware safely. Broken glassware causes more laboratory accidents than any other hazard. Because it is so fragile, glassware can easily fracture if it is bumped, dropped or too much pressure is applied to it. Some glassware accidents don't require much more than a band-aid, while others can result in a lot of blood and the need for medical attention. And the threat of contamination from the materials in a broken container can also be a serious problem. Areas covered in the course include inspecting glassware before use, effects of extreme temperatures and pressures, matching glassware to the experiment, working with glass tubing, using personal protective equipment, storage and handling, washing and clean-up, and more.

Coming Soon

[Ag Safety: Heat Stress](#)

The risk of becoming ill or even dying of over-exposure from the effects of heat is serious at all times, and even more so in the summer months. Too many workers are hospitalized and even die from heat-related illnesses. Program discusses techniques for controlling and preventing heat stress, and the first aid procedures necessary to treat the symptoms of heat exposure.

[Ag Safety: Pesticides 3: Container Labels](#)

The first line of defense in Pesticide Safety is to learn how to read and understand the container labels. There's a set of directions and warnings for each chemical that's used in the work environment, and every Ag industry employee needs to read and understand every section of the label. Program discusses the proper use for each chemical, precautions to take while handling the chemical, and emergency procedures in case of injury or accident.

[Caught in/Between Hazards - M276E \(15 mins\)](#)

Price: \$245.00

MARCOM's Video On Demand (VOD) program on Caught-In/Between Hazards in Construction Environments provides the information employees need to recognize the caught-in/between hazards that are associated with construction tasks and avoid them before accidents happen. Caught-in/between accidents occur when a person is squeezed, caught, crushed, pinched or compressed between two or more objects. They are one of the four top causes of fatalities in construction work, and can result in serious injuries as well. Topics covered in this program include the three major types of caught-in/between hazards; vehicles and heavy equipment; powered tools and machinery; and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer. The program can be delivered through your distributor or loaded onto your own delivery system.

Sheets and container labels, toxins, corrosives and irritants; flammables, combustibles and gases; carcinogens and radiation, exposure situations, personal protective equipment and chemical storage, spills and clean-up and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

[Heat Stress: Facts and Prevention - SS1007IE](#)

Price: \$245.00

Heat Illness...it can happen to just about anybody working in hot or humid conditions. It can be serious. It can be fatal. But, it' doesn't have to be. A few simple, easy to do steps can mean the difference between just another day at work and a serious medical emergency. This video outlines these steps in an easy to understand manner.

[Heat Stress: The Facts - SS1007IS \(12 min.\) SPANISH](#)

Price: \$245.00

More illnesses are surfacing from employees working in abnormally high temperatures, such as in a hot warehouse or warm assembly environment. This video discusses heat stroke, heat stress, fainting, and precautions to take when working in a hot environment.

[Housekeeping: Slips, Trips and Falls Facts Prevention - SSCN001 \(6 mins\)](#)

Price: \$245.00

Housekeeping/Slips, Trips & Falls A construction site can become a very messy place. But, the longer it stays that way, the more dangerous it becomes. This video outlines the connection between good housekeeping and injury prevention, especially slips, trips & falls. Common trip and fall hazards are shown and the root causes are examined for maximum impact.

[Lockout Tagout Refresher \(Employee\) - A4929E](#)

Price: \$245.00

Lockout/tagout is a procedure that isolates a piece of equipment form its energy source. Its purpose is to prevent a piece of equipment from accidentally starting up while a person is performing maintenance or repairs. Before you perform any work that requires lockout/tagout, make sure that you've been properly trained.

[Material Handling Safety - M280S Spanish](#)

Price: \$245.00

"Materials handling" is how the things that people need get to where they're needed, on time and intact. And these activities can be dangerous. Every year, thousands of workers are killed or injured while moving, stacking and storing materials. But these accidents don't have to happen. "Materials Handling Safety" products from MARCOM discuss the hazards that employees are likely to encounter, and explain the work practices and equipment they can use to control or eliminate these hazards. All of the products... the new "Micro-Learning" and full-length online courses as well as the DVDs and interactive CD courses... discuss topics that are

Video Catalog

integral to employees' understanding of these issues. Topics covered in these products include: Preparing yourself to work safely. Understanding "ergonomics". Safe lifting... step-by-step. Hand trucks and dollies. Platform trucks, carts and pallet jacks. Forklift safety. and more,

[Overexertion Prevention Construction - SSC018G \(14 min.\) \[English Only\]](#)

Price: \$245.00

Engineers and maintenance personnel know from experience that moving parts in equipment and machinery, if not properly used and maintained, are subject to wear and tear. Yet when it comes to our own bodies, we often think of them as indestructible. Overexertion type injuries are the highest percentage of worker compensations costs representing nearly 30 cents of every \$1 in claims paid. These types of injuries are often associated with lifting, pushing, pulling, tossing and handling material. In this effective and motivational program, your employees will learn how the body functions, risk factors associated with overexertion type injuries, and preventive measures they can utilize to reduce their exposure and prevent injuries. The program teaches the impact their posture can have on their body and the cumulative affect of improper lifting techniques. The visual graphics and comprehensive information will educate and motivate your employees to make the proper decisions and lifestyle adjustments to ensure their health and safety.

[Pneumatic Tool Safety - SS1023HE \(6 mins.\)](#)

[Pneumatic Tool Safety - SS1023HS](#)

[Pre-Shift Walk Around Inspection: Backhoes SSC017EE](#)

Price: \$245.00

Backhoes must be inspected before they are operated, every time its operated. It's the law. A proper inspection protects the operator and those working nearby by ensuring that the equipment is mechanically safe. That's what this video is all about, how to preform a thorough and accurate pre-shift inspection. The equipment is broken down into 4 quadrants to ensure accuracy and consistency for every inspection.

[Propane Safety - Fueling your Forklift - SS1032GE](#)

Price: \$245.00

This program focuses on the key fundamentals to safely handle propane tanks in relation with forklifts. From safe storage to switching out tanks, this program is a great f0r anyone that will be working with propane tanks and forklifts.

[Respiratory Protection: The Facts - SS1030BE \(17 mins\)](#)

Price: \$245.00

Sometimes it is difficult to respect a hazard you can't see or one that may take years to affect you. Respirators can provide protection, but only if they are worn and used properly.

Video Catalog

Respiratory Protection creates an awareness and respect for the hazards by demonstrating with highly effective graphics how the respiratory system works and the effects of different airborne hazards. The program covers proper use, care and maintenance of air-purifying respirators and the importance of proper selection and fit. Respiratory Protection will educate and motivate your worker on when and how to properly use their air-purifying respirator.

[Respiratory Protection: The Facts - SS1030BS \(18 mins\) Spanish](#)

Price: \$245.00

Respiratory Protection will educate and motivate your worker on when and how to properly use their air-purifying respirator.

[Rigging Safety - M123AS SPANISH](#)

Price: \$245.00

Rigging Safety is designed to remind employees that over 90% of crane-related accidents are caused by human error... and that they are the key to preventing these incidents. We have all heard the phrase... A chain is only as strong as its weakest link. When it comes to crane operations, rigging can often be that weak link. How a load is attached to a crane can make the difference between a successful lift and an unfortunate accident. And rigging-related accidents can often be deadly, due to the large and heavy loads that are lifted. A small miscalculation, or a brief moment of inattention, and tragedy could strike. Once a load falls not much can be done to stop it, and there is little time for people to move safely out of the way. A coworker can be injured or killed, and expensive equipment and cargo could be damaged or destroyed... even the crane itself. Areas covered in the course include physical and mental preparation, personal protective equipment, equipment inspection, hazard assessment, slings, hitches, hand signals, load angles, and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

[Rooftop Loading Safety - SS3025AE](#)

[Trenching and Shoring Safety in Construction Environments - M269E \(23 min\)](#)

Price: \$245.00

Trenching & Shoring Safety in Construction Environments helps facilities comply with OSHA's regulations and safe work practices that can prevent accidents from occurring. Twenty percent of workplace fatalities in the U.S. involve construction workers, but their chances of getting killed on the job more than double when they're working in a trench. An average of two employees are killed every month when the trench they're working in collapses on them. Many of these deaths and thousands of injuries can be prevented when employees understand the hazards that can be encountered in trenching work. This program covers the hazards of trenching, soil types and protective systems, the competent person, worksite inspection, testing, access, egress, setback and equipment, working defensively and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer. The program can be delivered through your distributor or loaded onto your own delivery system.

[Distracted Driving: Make The Correct Choice - SS1068I \(13 min.\)](#)

Price: \$245.00

In today's busy world, distractions are everywhere, especially behind the wheel. Phones, Ipods, texting, talking, you name it, they're all distractions. The temptation to use these devices behind the wheel is very real. This program identifies these hazards, exposes the dangers they present and offers practical advice on how to remain focused behind the wheel. Statistics show that up to 63% of all motor vehicle crashes are due in whole, or in part to distracted driving. In fact, distracted driving is rapidly becoming the largest contributor to serious and fatal vehicle crashes. This all-new video will help prevent you and your employees from becoming one of these statistics.

[Driving Distractions Of The Everyday Driver- SS1073I \(18 min.\)](#)

Price: \$245.00

In this presentation, viewers will become familiar with the unusual distractions faced by the everyday driver and how to prevent them from creating unsafe situations on the road. Topics covered include: Safe and effective use of comfortable controls GPS technology and cell phones How to handle additional unexpected distractions inside and outside of the vehicle

[Driving Distractions Of The Professional Driver - SS13025A \(15 min.\)](#)

Price: \$245.00

Prevent distracted driving among employees with this presentation on how professional drivers can prepare for a safe drive and maintain that safety while on the road. The material covers the host of possible distractions professional drivers face and how to avoid them through per-trip planning, knowing how to handle unexpected weather changes and handling everyday driving hazards on the job.

[Driving In Extreme Weather Conditions - SS13018AE \(10 mins.\)](#)

Price: \$245.00

The information in this program will reinforce safety practices when you drive and work in extreme weather conditions. As you drive through challenging weather conditions, proceed slowly and cautiously. Discusses several types of conditions you might encounter while driving in heavy snow, black ice, poor visibility, construction and night driving. Provides suggestions to help you avoid an accident.

[Driving Safety: The Basics - M230 SPANISH](#)

This video covers the three basic ways texting and driving distracts drivers and presents testimonials from a few drivers who have had personal experiences with texting and driving. Texting and driving not only effects you, it also effects those around you!

[The Blindfold Effect - AP400 \(17 min.\)](#)

Price: \$245.00

This dramatic video focuses on 3 driving situations that involve more than half of all collisions: following too closely, intersections and backing. Through reenactments and demonstrations of safe driving procedures, the video teaches tactical driving techniques that will improve every driver’s skill and awareness. An interactive format encourages participation. Some of the most costly injuries in agriculture are back injuries. This program explains safe lifting techniques, 10:1 ratio, hazards involved in stretching and/or twisting and more.

[The Knock at the Door - AP3704E \(5 min\)](#)

Price: \$245.00

The Knock at the Door recounts the tragic true story of 2 year-old Phil Cummings, who was killed by an alcohol impaired driver. The story, as told by Phil’s father, presents a powerful reminder about the dangers of drinking & driving. It also reinforces the message that driving brings with it a great deal of responsibility.

[Trucks, Vans And Other Delivery Vehicles - W1055 \(16 min.\)](#)

Price: \$245.00

Shows drivers how to safely operate delivery vehicles before, during and after a delivery. Topics covered include pre-trip inspections, proper backing, turning, braking and stopping procedures. Driving techniques for vehicles carrying loads and/or passengers in various weather and road conditions are demonstrated. Awareness, practicality and common sense are emphasized.

[Utility Cart Safety - SS1043IE \(10 min.\)](#)

Price: \$245.00

Focuses on operating safety, maintenance of electric batteries, safe driving techniques and

Video Catalog

basic safety requirements. Allowing operators to drive these vehicles without proper training increases a company's liability in the event anyone is injured as a result.

Utility Cart Safety - SS1043IS - Spanish

Price: \$245.00

Focuses on operating safety, maintenance of electric batteries, safe driving techniques and basic safety requirements. Allowing operators to drive these vehicles without proper training increases a company's liability in the event anyone is injured as a result.

Winter Driving - AP3263E (16 min)

Price: \$245.00

This attention grabbing safety video dramatically illustrates the importance of adjusting our driving techniques when winter rolls around. Aurora's famous Larry character also appears in this video making one winter driving mistake after another; mistakes we can all learn from. When the Rules Change also includes a powerful interview with a woman who was involved in fatal wintertime crash - an event that changed her life forever. The video addresses: * Vehicle preparation for winter * Adjusting schedules for winter driving conditions * Maintaining good visibility * Winter driving techniques, including intersections, cornering, skid control, braking and slowing down * Winter survival supplies and techniques

Winter Driving Hazards - English - W1076

Price: \$245.00

Winter weather is driving full of treacherous hazards including, ice, poor visibility, winds, snow, rain and more. Each weather condition and the risks involved with driving in each specific condition are discussed. Viewers will learn how to prevent unsafe incidents, starting with awareness, and how to generally stay safe despite the imminent dangers that every driver must face in the cold months.

Electrical Safety - Lockout/Tagout

[Arc Flash - M253E \(16 mins\)](#)

Price: \$245.00

Arc Flash focuses on what arc flash is, its hazards and how employees can avoid it on the job. Electricity is so common in our homes and workplaces that we normally don't think twice about using it. But electricity kills and injures thousands of people every year, so it's important to understand its hazards and know how to avoid them. Electricity poses two major hazards to people who work with it. The most intense is arc flash, a violent release of electrical energy that causes severe injuries and fatalities. The second is shock, which can cause burns, internal injuries, cardiac arrest... even be fatal. Topics covered in this program include shock and how to avoid it, what arc flash is, personal protective equipment, creating an electrically safe condition, avoiding arc flash situations and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

[Electrical Safety - M098S \(18 mins.\) Spanish](#)

Price: \$245.00

[Electrical safety for Non-Electricians - AP3140E \(17 mins\)](#)

Price: \$245.00

This comprehensive program is designed for general employees to raise awareness about electrical hazards and help prevent common electrical injuries. The valuable information helps protect employees on and off the job. Topics include: * Basic Electrical Terms and Definitions * Common Electrical Hazards * Safety Practices to Prevent Injury Included are several brief reenactments of electrical mishaps that will be reviewed to determine the primary contributing factors and to identify safe work practices that would prevent the mishap. Short interviews with people who have actually experienced electrical mishaps will help reinforce the safety message.

[Electrical Safety in the Laboratory - M19005E](#)

Price: \$245.00

Electrical Safety in the Laboratory emphasizes the need for safety when using electricity, and discusses how to reduce the potential for accidents involving electrical shock, fire and explosions. Today, laboratories rely on a vast array of electrically powered equipment. To work safely with this equipment, employees need to understand how electricity works, be aware of common electrical hazards and know how to use electricity safely. Areas covered in the course include how electricity works, common electrical hazards, fuses, circuit breakers and grounding, using and maintaining electrical equipment, accidents and emergency procedures,

and more.

[Lockout Tagout Refresher \(Employee\) - A4929E](#)

Price: \$245.00

Lockout/tagout is a procedure that isolates a piece of equipment from its energy source. Its purpose is to prevent a piece of equipment from accidentally starting up while a person is performing maintenance or repairs. Before you perform any work that requires lockout/tagout, make sure that you've been properly trained.

[Lockout/Tagout - SS1036AS \(14 mins\) Spanish](#)

Price: \$245.00

It is estimated that over 100 workers are seriously injured every day due to failure to properly lockout-tagout equipment. This program covers the purpose of lockout-tagout, the hazards associated with the accidental release of stored energy, proper lockout-tagout procedures for attaining zero energy state, proper startup procedures and special situations. Referred to by many professionals as the best training program in the market, Lockout-Tagout creates an awareness and respect for the hazards and motivates your workers to follow best practices to prevent incidents and ensure their safety.

[Operating Electric Pallet Jacks Safely - E2474E \(15 mins\)](#)

Price: \$495.00

Electric pallet jacks, often called pallet trucks, are designed for lifting and transporting palletized materials over relatively short distances. They come in many different types and styles and are vital to daily operations in today's industry. Even though they seem simple to use, they can be very dangerous when used by an untrained operator or in an unsafe manner. This program discusses how to safely operate electric-powered pallet jacks so operators can deliver their loads while avoiding injury and property damage. Topics include pre-operational inspection, driving and handling characteristics, lifting, moving and placing loads, avoiding incidents involving pedestrians, traveling on sloped surfaces and working on loading docks.

[Safe Electrical Work Practices and the 2018 NFPA 70E - E1717](#)

Price: \$245.00

This video explains the important changes and updates contained in the 2018 NFPA 70E and explains how electrical workers can be protected from both the shock hazard and arc flash hazard presented by exposed energized parts. The 2018 NFPA 70E places an emphasis on controlling risk. Other key changes include: Revised reference tables for establishing approach boundaries and selecting arc-rated clothing & PPE An additional unit of measure for incident energy, selecting arc-rated PPE, and establishing an arc flash boundary Updates of key definitions An explanation of employer and employee responsibilities

[Safe Electrical Work Practices and the 2018 NFPA 70E - E1717S Spanish](#)

Price: \$245.00

This video explains the important changes and updates contained in the 2018 NFPA 70E and explains how electrical workers can be protected from both the shock hazard and arc flash hazard presented by exposed energized parts. The 2018 NFPA 70E places an emphasis on controlling risk. As such, the electrical safety program, the shock hazard assessment, and the arc flash hazard assessment must now consider the likelihood as well as the severity of injury related to an electrical hazard. When controlling risk, the 2018 regulation now requires that a specific hierarchy of controls be followed. Another new requirement is that the potential for human error be considered in all risk assessments. Annex Q has been added to help explain how human performance can be applied to workplace electrical safety. The required elements of the Electrical Safety Program have been revised to now include a written job safety plan in addition to a job briefing, inspection of equipment, incident investigation, and risk assessment. Other key changes include: Revised reference tables for establishing approach boundaries and selecting arc-rated clothing & PPE An additional unit of measure for incident energy, selecting arc-rated PPE, and establishing an arc flash boundary Updates of key definitions An explanation of employer and employee responsibilities

[Solid Waste: Lockout Tagout - SS10035AE \(13 min.\)](#)

Price: \$245.00

In most industries it is as simple as turning off the power and installing a lock to prevent the power from being turned back on. In the solid waste industry the purpose is the same, protecting employees, but the energy sources we need to control aren't usually controlled by just a circuit breaker. This program takes a detailed look about how to properly lock and block trash hauling vehicles during maintenance and clean out operations.

[Evacuation Procedures - M240AS](#)

Price: \$245.00

Evacuation Procedures provides the information employees need to learn what steps to take to act quickly and safely during an evacuation. Dealing with an emergency is never easy. Neither is evacuating a facility when one is happening. Very few people can think clearly or act logically in a crisis, and our urge to get out can easily turn into panic. The result can often be a stampede that causes injuries and property damage. But it doesn't have to be that way, because you can help to ensure that an evacuation is calm and orderly. The course includes information on the Evacuation Team, preparing yourself for an evacuation, basic evacuation procedures, evacuating multi-story buildings, coping with fires and explosions, dealing with HAZMAT emergencies, and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

[Using Fire Extinguishers - M294E \(16 min\)](#)

Price: \$245.00

"Using Fire Extinguishers" looks at different types of fires, discuss how they should be put out, and explain how employees can use extinguishers effectively and safely if a fire emergency occurs. Topics covered in these products include: How fires burn. "Classes" of fires. Dry chemical and carbon dioxide extinguishers. Water and foam extinguishers. Using a fire extinguisher. Maintaining fire extinguishers. and more.

Ergonomics Training

[Ergonomics - What's Wrong With This Picture? - SS1049I \(10 min.\)](#)

Price: \$245.00

In this video, students are shown scenes of office employees at work and are asked to identify the hazards present. The clips are played back with narration and graphics explaining the problem and how to correct it. This method can make the training more interesting to employees weary of standard safety videos.

[Industrial Ergonomics - SS1082IE \(9mins\)](#)

Price: \$245.00

The official definition of Ergonomics is this...to apply engineering controls and scientific principles when designing a work environment that accommodates the employee in relation to the workplace, product, equipment, tools, workspace and organization of the work. The objective of ergonomics is to fit the task to the worker, rather than forcing the worker to adapt to the existing conditions. To put it simply, ergonomics is about making your job more user friendly. This video does exactly that and along the way you'll learn how to prevent CTDs and other cumulative injuries by recognizing the warning signs before they cause pain and discomfort. The Goal? Fewer injuries and CTD's, improved productivity with less time off the job due to ergonomic injuries, and an overall better quality of life, on and off the job.

[Office Ergonomics: Adjusting Your Workstation - Spanish SS1057IS \(14 min.\)](#)

Price: \$245.00

[Office Ergonomics: Adjusting Your Workstation - SS1057IE \(14 min.\)](#)

This unique approach to Ergonomics training, begins by asking each viewer to select what area of their body, if any, is experiencing pain or discomfort. They are shown common postures that can cause or contribute to the conditions. The viewer is then lead through a comprehensive and specific method of adjusting a workstation to maximize neutral postures and minimize pain, discomfort and strain. This program also points out the multitude of other factors outside of the workplace that can contribute to musculo-skeletal disorders. This encourages viewers to take steps to adopt neutral postures in all of their activities.

[Understanding & Controlling Ergonomic Risk Factors - E4761S SPANISH](#)

Price: \$245.00

Ergonomics can be complicated, but this program provides a simple explanation all employees can understand. Ergonomic controls are used in almost all workplaces to prevent musculoskeletal disorders (MSDs), often called cumulative trauma disorders or repetitive stress injuries. Workers often ignore the signs and symptoms of these disorders until a chronic condition has developed and they often don't know the measures they can take to prevent them. That's the purpose of this program—to explain what ergonomics and musculoskeletal disorders are and the measures your organization takes to control ergonomic risk factors. More importantly, the program reviews work control practices that workers can follow to prevent musculoskeletal injuries and illnesses. It also features both office and industrial settings to illustrate important lessons about ergonomics.

Forklift Safety Lessons For The Safe Pedestrian - E4733

Price: \$245.00

Forklifts can be very dangerous for both operators and employees out on the floor. In fact, 20 percent of all forklift incidents involve pedestrians being struck by a lift truck. In such an incident, it's the pedestrian that will suffer an injury or even death. These workers can avoid this by paying attention to the surroundings, staying a safe distance away from forklifts and following proper procedures. That's the purpose of this program—to show viewers the precautions they can take to prevent serious, often traumatic injuries that occur when forklifts come into contact with pedestrians.

Forklift Safety Lessons For The Safe Pedestrian - E4733S SPANISH

Price: \$245.00

Forklifts can be very dangerous for both operators and employees out on the floor. In fact, 20 percent of all forklift incidents involve pedestrians being struck by a lift truck. In such an incident, it's the pedestrian that will suffer an injury or even death. These workers can avoid this by paying attention to the surroundings, staying a safe distance away from forklifts and following proper procedures. That's the purpose of this program—to show viewers the precautions they can take to prevent serious, often traumatic injuries that occur when forklifts come into contact with pedestrians.

Forklift Safety: The Experienced Operator - SS1022GS (14 min.) SPANISH

Price: \$245.00

Aimed at experienced operators, this program communicates the importance of operating a forklift in a professional and safe manner and creates an awareness and respect for the potential hazards they may encounter. It establishes that the forklift operator is responsible for their safety and the safety of the people around them. Forklift Safety: The Experienced Operator will motivate your drivers to use the operating skills and techniques they've been taught to prevent accidents and injuries.

Forklift Safety: The Experienced Operator - SS1022GE (14 min.)

Operating Electric Pallet Jacks Safely - E2474E (15 mins)

Price: \$495.00

Electric pallet jacks, often called pallet trucks, are designed for lifting and transporting palletized materials over relatively short distances. They come in many different types and styles and are vital to daily operations in today's industry. Even though they seem simple to use, they can be very dangerous when used by an untrained operator or in an unsafe manner. This program discusses how to safely operate electric-powered pallet jacks so operators can deliver their loads while avoiding injury and property damage. Topics include pre-operational inspection, driving and handling characteristics, lifting, moving and placing loads, avoiding incidents involving pedestrians, traveling on sloped surfaces and working on loading docks

Operating Order Selectors Safely - E2475 - Spanish (17 mins)

Price: \$245.00

Order selectors, sometimes called order pickers, allow us to move materials, supplies and merchandise to and from storage areas more efficiently than ever before. Like all other powered industrial trucks, they can be extremely hazardous if safe work practices are not followed. Operators of order selectors have a responsibility to operate them in a safe manner at all times. This program examines some common hazards posed by the operation of order

Video Catalog

selectors and how to control these hazards through safe operating practices. Topics include order selector stability characteristics, pre-operational inspection, lifting and stacking materials properly, fall prevention, safe traveling techniques, preventing injuries to pedestrians and properly parking the vehicle.

General Safety/Orientation Awareness

[Accident Investigation for Everyone - E2485E \(23 mins\)](#)

Price: \$245.00

This program features safety professional Tom Harvey. Accident investigation is a key component of an effective safety process, but very few investigations achieve their intended purpose. All too often the focus of an investigation is finding someone responsible for an incident, but it should really be about finding facts, finding real causes and finding the fixes that will prevent the incident from happening again. For an accident investigation to be successful, it must lead to proactive safety improvements and injury prevention. This program will help everyone involved in an investigation - management, employees and investigators - understand their roles in the process. Viewers will also learn how to recognize common mistakes made during investigations and how to make the right changes that can prevent injuries and improve workplace safety.

[An Extra Effort For Safety Sake: Safety Behavior - SS1065IE \(15 min.\)](#)

Price: \$245.00

If safety is so important, why do accidents and injuries continue to occur? Government statistics estimate 5.7 million workplace injuries and illnesses occur annually with associated costs over \$170 billion. This dynamic new program addresses a complex issue with a light touch and an important message. Everyone is responsible and accountable for safety. Whether a new employee, 20-year veteran, or plant manager, this program is ideal for everyone at your site. An Extra Effort for Safety Sake addresses the importance of safety, the financial and emotional impact accidents and injuries can have, why safety needs to be a part of every task performed, and best practices to prevent incidents from occurring at your site. Filmed in multiple locations, this program will have a positive and lasting impact on your safety culture and motivate all employees to incorporate safety into every task they perform to help create an accident free work environment.

[Evaluating Near Misses To Prevent Accidents - BBCS1008E \(8 min.\) \[English Only\]](#)

Approximately 6 million employees are injured on the job every year. Video emphasizes the importance of taking any near miss seriously. It will show employees the essential role they play in reporting and evaluating near-miss-situations - and in helping their employer take appropriate steps to ensure that accidents that were previously waiting to happen .. never do.

[Fall Protection - M260E \(12 mins\)](#)

Price: \$245.00

Fall Protection provides the information employees need to work safely when they are off the ground, and satisfies the major training requirements in the OSHA Standard on Fall Protection. Falls are the second leading cause of death each year in the United States (after traffic accidents)! Over 10,000 people are killed every year as a result of falls...and 200,000 to 300,000 people are disabled. Eight-five percent of all falls that occur on the job result in lost work time. Areas covered in the course include the seriousness of fall hazards, types of environments where falls may occur, the fall protection plan, concentrating and keeping a clear head, the importance of housekeeping in preventing falls, measures that can be taken to protect against falls, protective equipment, and more.

[Fighting Fatigue in the Workplace - M309E \(15 mins\)](#)

Price: \$245.00

Tired people make mistakes. That's why workplace fatigue can significantly increase the likelihood of employees being hurt, even killed, on the job. It also reduces productivity and

Video Catalog

increases expenses. Each year, fatigue costs U.S. businesses more than \$130 billion dollars. But it can be prevented. MARCOM's training products on "Fighting Fatigue in the Workplace" discuss the causes of fatigue, the hazards that it creates and what employees can do to avoid it. All of the products... the new "Micro-Learning" and full-length online courses as well as the DVDs and interactive CD courses... discuss topics that are integral to employees' understanding of these issues. Topics covered in these products include: What fatigue is and what causes it. The hazards of fatigue. Reducing fatigue in the workplace. How "sleep hygiene" can help. The role of healthy diet and exercise. and more.

[I Chose To Look The Other Way: Three Stories Of Workplace Safety - E1418E](#)

Price: \$245.00

In this dramatic telling of the popular "I Chose To Look The Other Way," viewers will witness examples of three common scenarios of workers not speaking up about safety. The storylines feature a failure to follow lockout/tagout, an employee neglecting to wear PPE and a worker choosing not to wear fall protection as the primary causes of incidents that result in fatalities; however, your employees will learn that the root cause of each was a reluctance to speak up. They will be convinced that speaking up about unsafe acts is critical in the prevention of workplace injuries. Some of the other safety concerns addressed in the program include supervisors, rushing, habits, shift work and intimidation.

Stop & Think - AP3202E (5 min)

Price: \$245.00

Stop & Think! - a powerful, attention-grabbing new meeting opener by Aurora Pictures. 4 1/2 minutes of dramatic injury re-enactments in a variety of work settings hold the viewer's attention. Whether it's distractions, being in a hurry, or just not paying attention, we can all relate to the causes of these mishaps. Stop & Think carries a message that is simple, yet important to our safety: Sometimes all it takes to prevent an injury is for each of us to take a moment to stop...and think.

Take Time for Safety - E2950E (16 min.)

Price: \$245.00

In our busy lives, we are often faced with time-management choices. When given the chance, we must always choose safety over time savings, because rushing causes us to lose focus, skip steps, and make bad decisions. In fact, the time we spend staying safe is time well spent. In this program, workers learn the very real hazards associated with rushing and being in a hurry. Through various examples, viewers will learn to recognize the symptoms of becoming rushed, why "hurried working" is so dangerous and what steps they can take to stay safe. The program also makes the point that being in a hurry is not the real cause of incidents and injuries, but rather a symptom of poor planning, poor choices and poor time-management-all of which can be prevented by proper preparation and organization.

The First Step - AP3835E (5 min)

Price: \$245.00

This is the story about how one wrong step, one wrong action can change your life forever. Candace Carnahan, a young college student, worked summers at a paper mill in her home town. She had worked at the mill three years and was comfortable with the work and familiar

Video Catalog

with the environment; so familiar that she thought nothing of taking an often used shortcut – stepping over a conveyor system that ran at floor level. But one day she stepped too short, catching her foot in the conveyor and eventually losing her left leg from the knee down. Candace dramatically describes this tragedy and the safety lessons she learned from it. Her story will help your employees realize that the first step to not being injured is knowing that you can be injured. Candace Carnahan can speak in person for your company or event. Aurora Pictures can work with you to get this insightful and energizing speaker to help enable a culture of safety.

Warehouse Safety - M241E

Price: \$245.00

Warehouse Safety helps employees to stay safe by identifying the specific hazards they can encounter while working in a warehouse, and providing them with the practical procedures that they can use to avoid them. Warehouses are very busy places... and that can give rise to a lot of hazardous situations. Every year, thousands of warehouse workers are injured on the job, and more fatalities occur in warehouses than in most other workplaces as well. But it doesn't have to be that way. To protect themselves against accidents, employees need to meet warehouse hazards head on by being safety minded. Areas that are covered include warehouse safety fundamentals, materials handling basics, storing and stocking pallets, working safely with forklifts, working safely on loading docks and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

Price: \$245.00

Warehouse Safety helps employees to stay safe by identifying the specific hazards they can encounter while working in a warehouse, and providing them with the practical procedures that they can use to avoid them. Warehouses are very busy places... and that can give rise to a lot of hazardous situations. Every year, thousands of warehouse workers are injured on the job, and more fatalities occur in warehouses than in most other workplaces as well. But it doesn't have to be that way. To protect themselves against accidents, employees need to meet warehouse hazards head on by being safety minded. Areas that are covered include warehouse safety fundamentals, materials handling basics, storing and stocking pallets, working safely with forklifts, working safely on loading docks and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

Healthcare Training

[Bloodborne Pathogens: Know The Risk - SS1027BE](#)

Price: \$245.00

[Bloodborne Pathogens: Know The Risk - SS1027BS](#)

Price: \$245.00

[Emergency First Aid - SS1058IE \(19 min.\) \[English Only\]](#)

Price: \$245.00

First Aid is the immediate care given to the injured or suddenly ill person, it is temporary assistance until proper medical professionals are available. This training program is designed to provide information so that you can help a victim that is in need of first aid. This program discusses many life threatening situations such as CPR, shock, bleeding, drowning and poisoning.

[HIPAA Compliance - SS14017AE \(10 min.\) \[English Only\]](#)

Price: \$245.00

The Health Insurance Portability and Accountability Act, or HIPAA, forbids sharing, transmitting or divulging of information designated as Protected Health Information or PHI of individuals. It's designed to offer workers specific protections. Businesses are charged with the responsibility of complying with the provisions set forth in HIPAA and this program was designed to help you reach this goal. This program will help you understand what the HIPAA rulings mean, what your company must do and the steps that must be taken to bring your organization into compliance.

[Home Health Care - Animal Control - SS704E](#)

Price: \$245.00

Home Care Workers visit different home environments on a daily basis, and with different environments comes an array of challenges. One of those challenges may be encountering hostile pets. In some situations, when visiting a client, Home Care employees may be threatened, bitten, or otherwise injured by an unrestrained animal. Most animals seem friendly and harmless. Yet, every year in the U.S. animals: Bite millions of people, seriously injure thousands of people and kill about 100 people. Workers can help protect yourself and others by knowing how to recognize the warning signs of aggressive behavior, avoid or prevent an animal attack or how to defend an attack. This program illustrates all of these important techniques.

[Home Health Care - Body Mechanics - SS701E](#)

Video Catalog

Price: \$245.00

The purpose of using proper body mechanics is simple...To Prevent Injury. One of the most strenuous and potentially hazardous parts of home healthcare is bending, stretching and reaching. This program teaches how to reduce risk and prevent injury. Lift assist equipment such as gait belts, bath boards, grab bars and others are discussed as ways to reduce lifting demands. Viewers are taught to properly assess their environment and correct hazards before incidents occur. Safe Client Transfers and Ambulation are addressed in detail.

[Home Health Care - Elder/Child Abuse and Neglect - SS706E](#)

Price: \$245.00

Elder and child Abuse. Tragic. Horrifying. Unthinkable. Yet, it's estimated hundreds of thousands of elders and children are abused each year. Estimated because our picture of elder and child abuse is limited, due to the hidden and complex nature of the problem and the failure of healthcare workers and others to report elder and child abuse consistently. It can be hard to spot the more subtle forms of neglect and abuse. They're often unrecognized, because victims tend to be isolated. By learning to recognize elder or child abuse and neglect, by learning how to respond to the cases and by committing yourself to safeguarding clients in your care.

[Home Health Care - Slips, Trips and Falls - SS702E](#)

Price: \$245.00

Slips, trips and falls are the second most common cause of injury for home and community health workers. These types of accidents can result in serious disabling injuries and have a major impact on one's ability to perform their job and may result in lost work days, reduction in productivity or a diminished ability to care for a client. Recognizing and correction of household hazards is examined as the first step in prevention. Common slips and falls are examined to show what are the actual root causes and steps are outlined for workers to take to reduce hazards for everyone in the home.

[Home Health Care - Workplace Violence - SS705E](#)

Price: \$245.00

Workplace Violence is unacceptable, regardless of the work environment. This program defines different types of workplace violence common to home health care situations and discusses ways to prevent incidents. Recognition, prevention and de-escalation are the main techniques taught.

[Home Health Care - Body Mechanics - SS701S \(16 mins\) Spanish](#)

[I2P2: Injury and Illness Prevention Programs - M252E](#)

Price: \$245.00

I2P2: Injury and Illness Prevention Program provides employees with important information on how this organized approach to workplace safety can significantly reduce accidents and injuries, and how the workers themselves can play a major role in making the program work. Every day 12 workers die on the job, and more than 10,000 workers suffer serious job-related injuries. But the real tragedy is that most of these incidents could be prevented. Employers and employees can work together to find and fix the hazards in their workplace, before people get sick, injured or even killed. Areas covered in the program include what is I2P2, management responsibilities and employees' participation, hazard identification, assessment, prevention and control, education and training, program evaluation and improvement and more.

Video Catalog

[Needlestick Prevention - SS14016AE](#)

Price: \$245.00

Needlestick Injury Prevention program is designed to heighten awareness relating to needlestick injuries and to provide measures you can use to reduce these potentially serious injuries. First, we'll look at some basic statistics and then we'll review important safety rules, reporting injuries, and information relating to the prevention of needlestick injuries. OSHA estimates that 5.6 million workers in the health care industry and related occupations are at risk of occupational exposure to bloodborne pathogens. According to NIOSH, it is estimated that 800,000 needlestick injuries occur annually. This program is designed to heighten awareness in needlestick injuries and to provide measures to reduce serious injuries.

[Utility Cart Safety - SS1043IE \(10 min.\)](#)

Price: \$245.00

Focuses on operating safety, maintenance of electric batteries, safe driving techniques and basic safety requirements. Allowing operators to drive these vehicles without proper training increases a company's liability in the event anyone is injured as a result.

Hospitality OSHA 7

[Back Injury Prevention - SS5006AE \(11 min.\)](#)

Price: \$245.00

This program stresses preparation, technique and fitness as the keys to back injury prevention. The importance of stretching and warming up is stressed as a way to be proactive about back safety. Safe lifting techniques are vital in a supermarket/grocery environment due to the wide range of lifting challenges. A variety of situations are presented along with ways to prevent strain, stress or injury.

[Active Shooter Awareness Video: Helping Prevent Tragedy - SS5052AS \(15 MIN.\) Spanish](#)

Price: \$245.00

Incidents involving active shooters continue to be in the news. These acts of violence are becoming more commonplace in today's society, and although your chances of being a victim of an active shooter incident are minuscule, it is important your organization and your associates plan and be prepared for such an incident. Active shooters can strike where we live, where we work, where we study, where we shop or any other environment. No business or institution is immune to the potential of an active shooter attack. The purpose of this informational training is not to alarm viewers, but to enlighten them regarding some of the elements of an active shooter scenario and what they should do to be prepared to deal with such an act. Note: Please pay for this video through the following link when you are ready to start the video playing. Once it is paid for you will have access to it on this computer for the next 4 hours. Once you start the video, you can pause, jump ahead or rewind the video as long as you stay on this web page. If you leave the page and come back more than 4 hours from when you paid, you will have to pay again.

[Hotel Security: Not On My Watch - SS5070AE \(6 mins\)](#)

Price: \$245.00

Security...it's a part of your job, no matter what part of the property you work in. The Front Desk, Housekeeping, Engineering, Valet and others have an equal responsibility when it comes to maintaining the security of your facilities. This responsibility is awareness; keeping your eyes open for suspicious activity, knowing what to look for and reporting it when you see it. You can help protect yourself, your co-workers and your guests from tragedy. This video tells you how.

[Housekeeper Training - SS5005AE \(20 min.\)](#)

Price: \$245.00

Housekeepers face unique hazards in the course of their work. Video outlines specific safety hazards and gives the employee ways they can improve workplace safety and reduce or eliminate their risk of injury. Included are proper cleaning techniques, chemical use, back injury prevention, and more.

[Human Trafficking Awareness - SS5051AE \(8 min.\)](#)

Price: \$245.00

Authorities estimate that between 600,000 and 800,000 people are trafficked across borders every year. Often these victims are lured into a promise of a better life or a job offer, many times involving travel to another country, only to be forced into a situation they are unable to escape from. But why do Hotel Associates need to know about Human Trafficking? Law enforcement sources have indicated the illegal transportation of humans from one location to another is often facilitated through the use of hotels as a stopover points. Additionally, sexual exploitation has been known to sometimes occur in hotel rooms and hotel lounges. The "Trafficking Victims Protection Act of 2000" makes this activity a federal crime in the United States. Many organizations including hotels, airlines and others are stepping up to help combat this growing problem. This program will help associates identify suspicious activity and provide them with instruction on how to proceed with their suspicions.

[Manager on Duty Safety and Security - SS5061AE](#)

Price: \$245.00

MARCOM's Video On Demand (VOD) program on Safety Housekeeping and Accident Prevention provides workers with the information they need to recognize on-the-job hazards and explains how they can prevent them. Employees need to understand how to maintain a neat and orderly work environment and develop other good safety habits that will help them to create a safer workplace for everyone. Workplace accidents cause nearly 5,000 deaths and 3 million injuries every year. But many of these incidents could have been prevented. Good housekeeping and safety practices can significantly reduce accidents and injuries in any type of work environment. This program will provide workers with the information they need to recognize on-the-job hazards and explain how they can prevent them. Topics covered include developing a good safety attitude; maintaining a neat and orderly work environment; using tools and equipment; identifying and storing hazardous materials; hazardous materials cleanup and disposal, personal protective equipment and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer. The program can be delivered through your distributor or loaded onto your own delivery system.

[Manager on Duty Safety and Security - SS5061AS](#)

Price: \$245.00

Manager on Duty. What exactly does that mean? It might be easier to define what it DOESN'T mean because the responsibilities of a Manager on Duty involve every aspect of the entire operation...outside...inside...front of house...back of house...Associates...Guests...everything. This video focuses on some of the more vital issues relating to Safety and Security. A Manager on Duty may not be actually perform the duties or responsibilities in each issue we discuss, but they are responsible to ensure they are done, or not done, to protect the safety of our guests, property and our Associates. Topics include: guest privacy, evictions, DRAM shot, aggressive

[Accident Investigation for Everyone - E2485E \(23 mins\)](#)

Price: \$245.00

This program features safety professional Tom Harvey. Accident investigation is a key component of an effective safety process, but very few investigations achieve their intended purpose. All too often the focus of an investigation is finding someone responsible for an incident, but it should really be about finding facts, finding real causes and finding the fixes that will prevent the incident from happening again. For an accident investigation to be successful, it must lead to proactive safety improvements and injury prevention. This program will help everyone involved in an investigation - management, employees and investigators - understand their roles in the process. Viewers will also learn how to recognize common mistakes made during investigations and how to make the right changes that can prevent injuries and improve workplace safety.

[Dealing with Drug and Alcohol Abuse ... for Managers and Supervisors - M053E](#)

Price: \$245.00

Dealing with Drug and Alcohol Abuse ... for Managers and Supervisors - 053 Dealing with Drug and Alcohol Abuse... for Managers and Supervisors discusses the various forms of substance abuse that are typically found in the workplace, how managers and supervisors can detect substance abuse problems, and what they should... and shouldn't... do if they discover a worker with a substance abuse problem. Substance abuse is a huge, worldwide problem. An employee with an alcohol or drug problem can decrease productivity, create a hostile working environment and damage a company's good name. Worst of all, the actions of a worker who

is under the influence can completely undermine a company's efforts to keep people safe. The course includes information on how substance abuse can affect a workplace, laws and regulations related to substance abuse, the role of education and testing in preventing substance abuse, recognizing on-the-job substance abuse, and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

[Discrimination: Nobody Wins - SS1020AE \(14 min.\) \[English Only\]](#)

Price: \$245.00

Federal law demands that all employees must be hired, rewarded or reprimanded strictly based on job qualifications and job performance without regard to race, age, sex disability, religion or national origin. Most people believe this is the right thing to do...or do they? The reality is, discrimination, especially subtle discrimination, and harassment are still common occurrences in your workplace. Common stereotypes and broad assumptions about our differences are at the root of most discrimination problems. We all want a safe, fair and productive work environment, but discrimination can lead to an erosion of these principles. Everyone benefits from a discrimination-free workplace. But, if we let discrimination be a problem...nobody wins.

[Emergency Preparedness: A Supervisor's Responsibility - SS1050IE \(25 min.\)](#)

Price: \$245.00

This comprehensive video addresses EVERYTHING concerning emergency preparedness and natural disasters such as floods, earthquakes, hurricanes and storms. Also covers accidental disasters; fires, workplace tragedies and chemical spills. It even covers intentional disasters such as workplace violence, terrorism, employee sabotage and arson. The time to prepare for an emergency is before it happens and this is the best program available to train your supervisors to properly prepare and effectively respond.

[Fighting Fatigue in the Workplace - M309E \(15 mins\)](#)

Price: \$245.00

Tired people make mistakes. That's why workplace fatigue can significantly increase the likelihood of employees being hurt, even killed, on the job. It also reduces productivity and increases expenses. Each year, fatigue costs U.S. businesses more than \$130 billion dollars. But it can be prevented. MARCOM's training products on "Fighting Fatigue in the Workplace" discuss the causes of fatigue, the hazards that it creates and what employees can do to avoid it. All of the products... the new "Micro-Learning" and full-length online courses as well as the DVDs and interactive CD courses... discuss topics that are integral to employees' understanding of these issues. Topics covered in these products include: What fatigue is and what causes it. The hazards of fatigue. Reducing fatigue in the workplace. How "sleep

hygiene" can help. The role of healthy diet and exercise. and more.

[FMLA - HR104E \(16 mins\)](#)

Price: \$245.00

Employers are required to provide employee with general notice regarding the FMLA by displaying a poster notifying employees of the FMLA provisions and providing information concerning how to file a complaint with the Wage and Hour Division (WHD) of the U.S. Department of Labor In addition a covered employer with eligible employees must also provide a general notice in an employee handbook or other written material about leave and benefits.

[Harassment in the Workplace - SS1080IE \(10 min\)](#)

Price: \$245.00

Workplace harassment includes unwanted verbal or physical behavior regarding sex, gender, gender identity, religion, race, skin color, sexual orientation, physical or mental disability and age. Harassment can target almost any personal characteristic, and occur between any two people...co-workers, managers, or even non-employees like clients, contractors, or vendors. In addition, the victim of harassment is not only the person who is the intended target, but anyone affected by the offensive behavior. Harassment can lead to a hostile, volatile workplace, which is why it is important that your associates know how to properly recognize this behavior and respond correctly. handling these situations wrong can lead to retribution and escalation, so everyone at your facility should be properly trained. This video is a great place to start.

[Harassment in the Workplace - SS1080IS](#)

Price: \$245.00

Workplace Harassment in Industrial Facilities - This program on Workplace Harassment in Industrial Facilities discusses the various types of harassment that are found in the workplace, how they can affect an employee's work situation and what employees themselves can do to help prevent workplace harassment. When people hear the word harassment they usually think of sexually-related activity. But harassment encompasses a wide range of behavior... from practical jokes to intimidation. It can also include threats, verbal abuse and discrimination, even stalking and assault... and anyone can be subject to it. Areas covered in the course include the nature of workplace harassment, how to recognize various types of harassment, how to handle verbal abuse and threats, the many forms harassment can take, how to recognize the many variations of assault, knowing what to do, and what not to do, when confronted with a stalker, how fostering a positive workplace environment can increase productivity and safety, and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

Workplace Violence: The Myths And The Mystery - W8022E (18 min.)

Price: \$245.00

Knowing the truth about workplace violence is the first step in handling it safely and in maintaining a safe and productive workplace. This presentation will dispel any myths surrounding workplace violence and will provide the information that every worker needs to know to remain safe among their coworkers. Viewers will learn how to identify the common warning signs of a situation on the brink of danger. Focus is placed on prevention of negative incidents through positive actions, awareness and effective communication.

Young Workers - HR101E (8 mins)

Price: \$245.00

Do you employ young workers? If so, you can prevent or reduce workplace injuries and make work safer for all workers, including youth. Under the Occupational Safety and Health Act 1970 (OSH Act), employers have the responsibility to provide a safe and healthy work environment and comply with occupational safety and health standards.

Janitorial/Maintenance

[Housekeeping & Accident Prevention - M278 Spanish](#)

Price: \$245.00

Safety Housekeeping and Accident Prevention provides workers with the information they need to recognize on-the-job hazards and explains how they can prevent them. Employees need to understand how to maintain a neat and orderly work environment and develop other good safety habits that will help them to create a safer workplace for everyone. Workplace accidents cause nearly 5,000 deaths and 3 million injuries every year. But many of these incidents could have been prevented. Good housekeeping and safety practices can significantly reduce accidents and injuries in any type of work environment. This program will provide workers with the information they need to recognize on-the-job hazards and explain how they can prevent them. Topics covered include developing a good safety attitude; maintaining a neat and orderly work environment; using tools and equipment; identifying and storing hazardous materials; hazardous materials cleanup and disposal, personal protective equipment and more.

[Housekeeping & Accident Prevention - M278E](#)

[Shop Safety - SS1083IE \(8 mins\)](#)

Price: \$245.00

[Shop Safety - SS1083IS \(8 mins\) Spanish](#)

Price: \$245.00

[Utility Cart Safety - SS1043IS - Spanish](#)

Price: \$245.00

Focuses on operating safety, maintenance of electric batteries, safe driving techniques and basic safety requirements. Allowing operators to drive these vehicles without proper training increases a company's liability in the event anyone is injured as a result.

Laboratory Safety Series

[Electrical Safety in the Laboratory - M19005E](#)

Price: \$245.00

Electrical Safety in the Laboratory emphasizes the need for safety when using electricity, and discusses how to reduce the potential for accidents involving electrical shock, fire and explosions. Today, laboratories rely on a vast array of electrically powered equipment. To work safely with this equipment, employees need to understand how electricity works, be aware of common electrical hazards and know how to use electricity safely. Areas covered in the course include how electricity works, common electrical hazards, fuses, circuit breakers and grounding, using and maintaining electrical equipment, accidents and emergency procedures, and more.

[Flammables & Explosives in the Laboratory - M19003E](#)

Price: \$245.00

Flammables and Explosives in the Laboratory discusses the nature of flammable and explosive materials, as well as hazards associated with their use. It also reviews the proper handling procedures and personal protective equipment that should be used when working with these substances. Flammables and explosives are some of the most dangerous materials used in a laboratory. When working with these substances, employees need to know their characteristics, as well as how to prevent accidents and injuries when using them. Areas covered in the course include definitions of flammables and explosives, conditions that can create hazards, the role of ventilation in preventing problems, transporting flammables and explosives, storage considerations, using compressed gases, emergency planning, disposal, and more.

[GHS Safety Data Sheets in the Laboratory - M178E](#)

Price: \$245.00

GHS Safety Data Sheets in the Laboratory reviews the composition of GHS Safety Data Sheets, the information that's contained in each section and how SDS's are different from Material Safety Data Sheets. Created specifically to assist facilities in complying with the employee training requirements of OSHA's newly adopted GHS regulations, this course discusses how chemicals should be labeled under GHS. Topics covered in the program include Material Safety Data Sheets and GHS SDS's, materials and their hazards, hazardous materials emergencies, handling hazardous materials and more.

[Handling Compressed Gas Cylinders in the Laboratory - M196E](#)

Price: \$245.00

Handling Compressed Gas Cylinders in the Laboratory examines how gas cylinders work, the hazards that are associated with them and the need for caution when using or storing a cylinder. The energy possessed by a compressed gas cylinder can make it a virtual missile if it

is not handled with the utmost care. And a leaking cylinder or fitting can lead to asphyxiation, a fire or even an explosion. Since compressed gas cylinders are frequently used in many laboratories, employees need to be familiar with the precautions that should be taken when dealing with them. Areas covered in the course include the four ways to compress gases, hazards associated with compressed gases, proper storage procedures, marking and labeling, handling cylinders safely, connections and fittings, leak detection, and more.

Laboratory Ergonomics - SS19006AE

Price: \$245.00

Laboratory Ergonomics discusses the need to set up work areas correctly, as well as how to minimize the strain of using laboratory equipment, tools and instruments. Many activities in the laboratory can exert stress and strain on muscles and joints... ultimately causing significant injuries. To work safely and maintain good ergonomic health, employees need to know how to avoid movements and work patterns that can be harmful. Areas covered in the course include parts of the body most susceptible to ergonomic problems, arranging work areas to minimize stress and strain, working from neutral positions, most and least stressful types of body movements, proper lifting techniques, effective stretching exercises, and more.

Orientation to Laboratory Safety - M19001E

Price: \$245.00

Orientation to Laboratory Safety shows both new employees and seasoned veterans the importance of safety in the laboratory... as well as reviews the OSHA regulations and good safety practices that apply to the laboratory environment. A laboratory can be a dangerous place, and with the daily pressures to get things done, employees can be tempted to take shortcuts and ignore safety precautions. With the increasing complexity of the equipment and procedures involved in experiments, employees need an even greater knowledge of safety practices and procedures than they may have had in the past. Areas covered in the course include OSHA regulations, GHS Safety Data Sheets (SDSs), planning safe experiments, personal protective equipment, ventilation controls, chemical storage, accidents and emergencies, waste disposal, and more.

Planning for Laboratory Emergencies - M19011E

Price: \$245.00

Planning for Laboratory Emergencies discusses how to minimize damage and prevent injuries if an emergency should occur. A caustic acid hose has just erupted...an experiment has shown unexpected reactions... what should employees do to deal with these and other emergencies? Employees need to know when and how they should act in an emergency situation. Areas covered in the course include the emergency plan, types of emergencies, alarms and warning systems, contacting outside agencies, evacuation, fires, explosions and chemical spills, and more.

Safe Handling of Laboratory Glassware - M19010E

Price: \$245.00

Safe Handling of Laboratory Glassware discusses the nature of various types of glassware, and the problems it can cause... as well as the need for employees to use and maintain laboratory glassware safely. Broken glassware causes more laboratory accidents than any other hazard. Because it is so fragile, glassware can easily fracture if it is bumped, dropped or too much pressure is applied to it. Some glassware accidents don't require much more than a band-aid, while others can result in a lot of blood and the need for medical attention. And the threat of contamination from the materials in a broken container can also be a serious problem. Areas covered in the course include inspecting glassware before use, effects of extreme temperatures and pressures, matching glassware to the experiment, working with glass tubing, using personal protective equipment, storage and handling, washing and clean-up, and more.

[Safety Showers Eye Washes in the Laboratory - M19002E](#)

Price: \$245.00

[Utility Cart Safety - SS1043IS - Spanish](#)

Price: \$245.00

Focuses on operating safety, maintenance of electric batteries, safe driving techniques and basic safety requirements. Allowing operators to drive these vehicles without proper training increases a company's liability in the event anyone is injured as a result.

Machinery & Welding

[Arc Flash - M253E \(16 mins\)](#)

Price: \$245.00

Arc Flash focuses on what arc flash is, its hazards and how employees can avoid it on the job. Electricity is so common in our homes and workplaces that we normally don't think twice about using it. But electricity kills and injures thousands of people every year, so it's important to understand its hazards and know how to avoid them. Electricity poses two major hazards to people who work with it. The most intense is arc flash, a violent release of electrical energy that causes severe injuries and fatalities. The second is shock, which can cause burns, internal injuries, cardiac arrest... even be fatal. Topics covered in this program include shock and how to avoid it, what arc flash is, personal protective equipment, creating an electrically safe condition, avoiding arc flash situations and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

[Carbon Monoxide - SS5063AE \(12 mins\)](#)

Price: \$245.00

Carbon Monoxide...odorless, colorless, deadly, and it could be in your property. Everyone needs to be aware of this potential threat. This program address: What is carbon monoxide and why is it dangerous How carbon monoxide is generated and how it is handled in occupied spaces Symptoms of carbon monoxide poisoning Maintaining fuel-fired equipment to minimize carbon monoxide accumulation Following the recommendations outlined in this program can help you reduce the threat of carbon monoxide on you property.

[Compressed Air Safety - E2131E \(17 mins\)](#)

Price: \$245.00

This video stresses the importance of working safely with compressed air to prevent injuries. Featured are four workplace incidents that illustrate the fact that compressed air hazards are often not easily recognized but still can have tragic consequences. Topics include: Dangers of cleaning with compressed air How compressed air can injure the human body Use of hearing protection in noisy environments Inspection and maintenance of compressed air equipment Components of compressed air systems

[Compressed Gas Cylinders - M259E \(19 mins.\)](#)

Price: \$245.00

Stored compressed gases are essential components in all areas of American industry. Compressed gas cylinders hold fuel, breathable air and chemicals that can produce devastating results if they are accidentally released or leak. This program shows the viewer the types of hazards associated with the gases, how the gases are compressed and stored and how the cylinders should be handled. The viewer will also learn how to connect gas cylinders to service lines and fixtures and how to control gas leaks.

[Creating Safety In Welding Operations - E4760E \(11 mins\)](#)

Price: \$245.00

Welders take pride in their work; after all, their welds are visible for all to see. To avoid injury, welders must also take pride in their safety and make sure safety is also visible for all to see. Every day, welders are confronted with many hazards that can cause serious injury and property damage. Hot metal, intense light, noxious fumes and heavy equipment are only a few potential dangers these employees can encounter. It is imperative that workers who weld be able to recognize all the hazards of their jobs and know how to control or eliminate them. In this program, welders are provided an overview of safety issues related to welding operations and what actions they must take to avoid injury to themselves and their co-workers.

[Electrical Safety For Non-Electricians - AP962E \(10 min.\)](#)

Price: \$245.00

This video is designed to provide basic electrical safety training for employees who work around electrical equipment but aren't qualified electricians. Featured are several injury re-enactments that illustrate the consequences of committing unsafe acts with and around electricity. Training topics of the program include electrical insulators and conductors, circuits and circuit-breaking devices, how electricity is measured, basic electrical terminology, safe work practices for work around electrical equipment, awareness of electrical hazards and responding to electrical injuries.

[Handling Compressed Gas Cylinders in the Laboratory - M196E](#)

Price: \$245.00

Handling Compressed Gas Cylinders in the Laboratory examines how gas cylinders work, the hazards that are associated with them and the need for caution when using or storing a cylinder. The energy possessed by a compressed gas cylinder can make it a virtual missile if it is not handled with the utmost care. And a leaking cylinder or fitting can lead to asphyxiation, a fire or even an explosion. Since compressed gas cylinders are frequently used in many laboratories, employees need to be familiar with the precautions that should be taken when dealing with them. Areas covered in the course include the four ways to compress gases, hazards associated with compressed gases, proper storage procedures, marking and labeling, handling cylinders safely, connections and fittings, leak detection, and more.

[Industrial Cranes: Safety Is In Your Hands - SS1026H \(15 min.\)](#)

Price: \$245.00

Cranes. Useful tools. Powerful tools. Tools that need to be treated with respect. Why? The reason is simple. Any mistake with a crane, even a small mistake can have serious consequences including property damage, injury or even loss of life. Knowing how to use the equipment properly and following established policies and procedures can help minimize risk. That's what this program is all about, the basics of crane safety.

[Laboratory Hoods - M19008E \(15 mins\)](#)

Price: \$245.00

Laboratory Hoods emphasizes how to properly use laboratory hoods and how to test them to ensure correct functioning... as well as discusses how hoods can protect an experiment, the facility, and most importantly, the employee. Many of the materials used in laboratories give off fumes, mists, vapors, particulates or aerosols which are hazardous. To minimize exposure to these materials, special precautions need to be taken. This often means working within a hood. Areas covered in the course include why laboratory hoods are needed, protections afforded by hoods, how hoods function mechanically, proper use of laboratory hoods, testing and maintenance, and more.

[Lockout/Tagout - SS1036AS \(14 mins\) Spanish](#)

Price: \$245.00

It is estimated that over 100 workers are seriously injured every day due to failure to properly

lockout-tagout equipment. This program covers the purpose of lockout-tagout, the hazards associated with the accidental release of stored energy, proper lockout-tagout procedures for attaining zero energy state, proper startup procedures and special situations. Referred by many professionals as the best training program in the market, Lockout-Tagout creates an awareness and respect for the hazards and motivates your workers to follow best practices to prevent incidents and ensure their safety.

[Lockout/Tagout Procedures - SS1036AE \(14 mins\)](#)

Price: \$245.00

[Machine Guarding & Conveyor Safety - SS1003HE \(12 min.\)](#)

Price: \$245.00

Emphasizes that machine guarding is not foolproof and requires employee responsibility when working with machinery. The last segment of the program addresses safety concerns regarding employees who work with or near conveyor systems.

[Machine Guarding & Conveyor Safety - SS1003HS \(12 min.\) Spanish](#)

Price: \$245.00

Emphasizes that machine guarding is not foolproof and requires employee responsibility when working with machinery. The last segment of the program addresses safety concerns regarding employees who work with or near conveyor systems.

[Machine Guarding: The Real Story - SS1027HE \(13 min.\) \[English Only\]](#)

Price: \$245.00

We will follow the personal stories of three workers who have been affected or injured at work by breeches in machine guard safety procedures. Through each worker's personal stories, viewers will see the possible far-reaching impact of overlooking safety procedure for even a moment. Emphasis is placed on the importance of following safe general machine guarding procedures, proper guard inspection before use, and practicing awareness while using machines.

[Machinery & Tool Safety - SS1028HE \(12 mins.\) English](#)

Price: \$245.00

[OSHA Formaldehyde Standard - SS19004AE \[English Only\]](#)

Price: \$245.00

The OSHA Formaldehyde Standard provides training that is required by this standard, and focuses on the rules and procedures that the standard establishes for working with this potentially dangerous chemical. While Formaldehyde is used in many laboratory operations, it can be a serious health hazard. The results of mishandling Formaldehyde can be serious. They can range from the short-term discomfort associated with minor burns or skin irritation... to chronic effects from a lifetime of overexposure. Areas covered in the course include potential health hazards, testing for Permissible Exposure Limits (PEL), labeling and Material Safety Data Sheets, hoods and other ventilation systems, personal protective equipment, spill clean-up and decontamination procedures, first aid, the medical surveillance plan, and more.

[Preventing Fires During Hot Work Operations - E4751E](#)

Price: \$245.00

Welding, grinding, cutting, open flame and other spark-producing tools and operations are all capable of starting dangerous fires in our workplaces. Collectively known as hot work, such processes require specific permits and procedures be followed to prevent the ignition of vapors, liquids and solids that may be in or near the work area. Careless hot work operations can quickly lead to fires, extensive property damage, severe injuries or death. This program discusses the safe work practices that should be taken to prevent such incidents and reviews the responsibilities of those workers involved in hot work tasks.

New Releases

[360 Housekeeping Training - SS360_01E](#)

Price: \$245.00

This is 360 video training! If you are wearing V.R. Goggles, look around! If you are using a computer or laptop, simply click and hold on the video, then drag the screen to where you want to look. Using a cell phone or tablet? Even better! Once full screen you can simply move your phone or tablet to look around. You can also tap, hold and drag the screen to look around as well. Enjoy this immersive experience.

[360 Restaurant Kitchen Training - SS360_02E](#)

Price: \$245.00

This training will help you identify common hazards found in the kitchen.

[Aerial Lift Safety - SS1031GE \(13 mins\)](#)

Price: \$245.00

Any job that requires personnel to be elevated above the ground will also require one of the various types of aerial lifts to get them there. This video covers Hazard Recognition, Pre-Start Inspections, Work Zone Inspections, Operator Training and more...

[Bucket Truck Safety - SS1021GE \(12 Min.\)](#)

Price: \$245.00

Bucket & Boom trucks are great tools and have many uses. They allow us to reach places we could not normally reach but there are dangers you may face. That's what this program is all about, the hazards associated with Bucket Trucks and steps you can take to help minimize your risk and keep you, and those working around you, safe.

[Customer Service in Hospitality - SS5069AE \(5 mins.\)](#)

Price: \$245.00

Customer Service...Hospitality, the two go hand in hand. Customer service is everyone's job at the hotel, not just the Front Desk. This program outlines some do's and don't's of customer service and teaches your associates to make a good impression, regardless of what department they work in.

[Dump Truck Safety - SSC020PE \(8 mins\)](#)

Price: \$245.00

This videos covers some of the hazards you might face while operating a dump truck.

Video Catalog

121

[Fire Extinguisher Training - SS5072AE \(5 mins.\)](#)

Price: \$245.00

Fire Extinguishers...your first line of defense in the event of a fire. Does everyone on your staff know how to use one and when to use one? This program covers the basics of HOW to properly use a fire extinguisher and WHEN to use it.

[FMCSA: Know The Facts - SS17033AE \(11 mins\)](#)

Price: \$245.00

The goal of the Motor Carrier Safety Improvement Act, enacted by the FMCSA, or Federal Motor carrier Safety Administration, is CSA; Compliance, Safety and Accountability. This video will help drivers and the companies they work for the criteria and guidelines of CSA and what they must do to remain in compliance and avoid sanctions and penalties.

[GHS: The Basics - SS1050FS \(5 mins\) Spanish](#)

Price: \$245.00

GHS or Globally Harmonized System is a method of identifying chemicals and their associated hazards. This video provides viewers with the basics of this program and describes the resources they can use to properly identify the hazards they may face, protective measures to minimize these hazards and other pertinent information.

[Hotel Security: Not On My Watch - SS5070AE \(6 mins\)](#)

Price: \$245.00

Security...it's a part of your job, no matter what part of the property you work in. The Front Desk, Housekeeping, Engineering, Valet and others have an equal responsibility when it comes to maintaining the security of your facilities. This responsibility is awareness; keeping your eyes open for suspicious activity, knowing what to look for and reporting it when you see it. You can help protect yourself, your co-workers and your guests from tragedy. This video tells you how.

[Hours Of Service - SS17034AE \(12 Min.\)](#)

Price: \$245.00

Hours of Service Regulations are designed to keep fatigued drivers off the road. This program outlines these regulations and demonstrates how drivers and companies can remain in compliance with these FMCSA regulations.

[Industrial Ergonomics - SS1082IE \(9mins\)](#)

Price: \$245.00

The official definition of Ergonomics is this...to apply engineering controls and scientific principles when designing a work environment that accommodates the employee in relation to the workplace, product, equipment, tools, workspace and organization of the work. The objective of ergonomics is to fit the task to the worker, rather than forcing the worker to adapt

Video Catalog

to the existing conditions. To put it simply, ergonomics is about making your job more user friendly. This video does exactly that and along the way you'll learn how to prevent CTDs and other cumulative injuries by recognizing the warning signs before they cause pain and discomfort. The Goal? Fewer injuries and CTD's, improved productivity with less time off the job due to ergonomic injuries, and an overall better quality of life, on and off the job.

[Intersections - SS17035AE \(5 Min.\)](#)

Price: \$245.00

Intersections can be one of the most hazardous locations you navigate on the road. There are many factors that can affect your safety approaching and navigating intersections. This video will explain these factors and the steps you can take to avoid accidents.

[Professional Truck Driving - SS17032AE \(6 mins\)](#)

Price: \$245.00

Professional truck drivers encounter a wide variety of potential hazards every day. This video explains how to safely navigate these hazards. This video explains some common driving tips as well as hazards that apply specifically to truck driving.

[Propane Safety - Fueling your Forklift - SS1032GE](#)

Price: \$245.00

This program focuses on the key fundamentals to safely handle propane tanks in relation with forklifts. From safe storage to switching out tanks, this program is a great fit for anyone that will be working with propane tanks and forklifts.

[Safe Backing Of Tractor Trailers - SS17031AE \(5 mins\)](#)

Price: \$245.00

One of the most challenging situations a truck driver faces is backing, and it's an action that is performed every day in a variety of situations. This video is a great way to help train new drivers or give refresher training to experienced drivers.

[Shop Safety - SS1083IE \(8 mins\)](#)

Price: \$245.00

[The Safety Supervisor: Orientation and Overview - SS2051AE \(14 mins\)](#)

The Safety Supervisor: Orientation and Overview will go over the topics Supervisors will need to know to do their job. In any organization or company, maintaining a safe workplace is an everyday commitment, and while everyone plays a role in that effort, no-one is more involved and more responsible than the Safety Supervisor. From orienting new hires to generating accident reports to checking protective equipment, the Safety Supervisor has to be available, aware, accountable and ready to take action at all times.

Office Safety Training Videos

[Harassment in the Workplace - SS1080IE \(10 min\)](#)

Price: \$245.00

Workplace harassment includes unwanted verbal or physical behavior regarding sex, gender, gender identity, religion, race, skin color, sexual orientation, physical or mental disability and age. Harassment can target almost any personal characteristic, and occur between any two people...co-workers, managers, or even non-employees like clients, contractors, or vendors. In addition, the victim of harassment is not only the person who is the intended target, but anyone affected by the offensive behavior. Harassment can lead to a hostile, volatile workplace, which is why it is important that your associates know how to properly recognize this behavior and respond correctly. Handling these situations wrong can lead to retribution and escalation, so everyone at your facility should be properly trained. This video is a great place to start.

[Harassment in the Workplace - SS1080IS](#)

Price: \$245.00

Workplace Harassment in Industrial Facilities - This program on Workplace Harassment in Industrial Facilities discusses the various types of harassment that are found in the workplace, how they can affect an employee's work situation and what employees themselves can do to help prevent workplace harassment. When people hear the word harassment they usually think of sexually-related activity. But harassment encompasses a wide range of behavior... from practical jokes to intimidation. It can also include threats, verbal abuse and discrimination, even stalking and assault... and anyone can be subject to it. Areas covered in the course include the nature of workplace harassment, how to recognize various types of harassment, how to handle verbal abuse and threats, the many forms harassment can take, how to recognize the many variations of assault, knowing what to do, and what not to do, when confronted with a stalker, how fostering a positive workplace environment can increase productivity and safety, and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

[Office Ergonomics: Adjusting Your Workstation - Spanish SS1057IS \(14 min.\)](#)

Price: \$245.00

[Office Ergonomics: Adjusting Your Workstation - SS1057IE \(14 min.\)](#)

This unique approach to Ergonomics training, begins by asking each viewer to select what area of their body, if any, is experiencing pain or discomfort. They are shown common postures that can cause or contribute to the conditions. The viewer is then led through a comprehensive and specific method of adjusting a workstation to maximize neutral postures and minimize pain, discomfort and strain. This program also points out the multitude of other

Video Catalog

factors outside of the workplace that can contribute to musculo-skeletal disorders. This encourages viewers to take steps to adopt neutral postures in all of their activities.

Office Safety Basics - SS1008ES (7 mins) Spanish

Price: \$245.00

Designed to raise awareness of safety hazards in an office environment. This video focuses on the most common hazards found in an office. Video discusses basic ergonomics, ladders, office equipment, slips and falls, safe lifting, fire prevention and more.

Office Safety Basics - SS1008EE (10 min)

Price: \$245.00

Designed to raise awareness of safety hazards in an office environment. This video focuses on the most common hazards found in an office. Video discusses basic ergonomics, ladders, office equipment, slips and falls, safe lifting, fire prevention and more.

Personal Hygiene In The Workplace - SS1009EE (10 min.)

Price: \$245.00

Personal hygiene can “make or break” a person’s success at their job, and it can cause discomfort and embarrassment that results in a breakdown of communication and productivity. This program has been developed as a tool for employers to be proactive in addressing the subject, as well as an aid to those managers and supervisors that find themselves in the position of needing to react and take action in the even of a complaint.

Personal Hygiene In The Workplace - SS1009ES (7 min.) Spanish

Price: \$245.00

Personal hygiene can “make or break” a person’s success at their job, and it can cause discomfort and embarrassment that results in a breakdown of communication and productivity. This program has been developed as a tool for employers to be proactive in addressing the subject, as well as an aid to those managers and supervisors that find themselves in the position of needing to react and take action in the even of a complaint.

Personal Protection Videos

[A Million Excuses - SS1055IE \(10 Min.\)](#)

Price: \$245.00

This all new video, although humorous, delivers hard-hitting impact for all employees. The program examines the “million” excuses offered by employees for not following established safety policies and procedures, not wearing Personal Protective Equipment and for not using common sense on the job. When employee’s see the excuses in this program, it may cause them to examine some of their own attitudes which may be unsafe.

[Blink And You Could Lose Your Hand - E9723S](#)

Price: \$245.00

This video recounts the story of Calvin, a mill worker who suffered a traumatic hand injury while operating a papermaking machine. The viewer will see not only the cause of the injury, but also the resulting consequences and how they affect Calvin and his family. The program also shows what safety rules should have been followed to prevent this incident and other industrial hand injuries.

Topics include how noise can damage hearing, using and fitting earplugs and ear muffs, the medical surveillance program, dangers of off-job noise and signs and symptoms of hearing loss.

[Hearing Conservation: The Facts - SS1020BE \(11 min.\)](#)

Price: \$245.00

This video heightens awareness of hearing conservation in the workplace. Explains the anatomy of the ear, how noise can cause hearing loss, and how to prevent hearing loss. Includes a cameo appearance of "Lou Ferrigno", noted famous body builder, author and trainer, who has been severely hearing impaired since birth.

[Heat Stress: Facts and Prevention - SS1007IE](#)

Price: \$245.00

Heat Illness...it can happen to just about anybody working in hot or humid conditions. It can be serious. It can be fatal. But, it' doesn't have to be. A few simple, easy to do steps can mean the difference between just another day at work and a serious medical emergency. This video outlines these steps in an easy to understand manner.

[Heat Stress: Real Accidents, Real Stories - W1029E \(15 min.\)](#)

Price: \$245.00

Viewers will learn while listening to a set of attention-grabbing personal accounts of incidents when safety was neglected in high temperature situations, both indoors and outdoors. Includes commentary on what workers need to know about heat stress symptoms and prevention. Viewers will gain an understanding of the many hazards of working in the heat, including dehydration, heat cramps, heat stroke, heat exhaustion and teaches how to potentially minimize these hazards.

[Heat Stress: Staying Healthy, Working Safely - W1072E \(14 min.\)](#)

Price: \$245.00

Over 20% of heat stroke victims dies regardless of their health or age. The information in this video provides general safety instruction to anyone who works in a hot environment, whether that environment is an indoor or outdoor area. This presentation covers the various types of heat stress, what their symptoms are, how the body operates in a hot environment, what workers can do to prevent heat stress from occurring and what measures to take if they recognize heat stress symptoms in themselves or a coworker.

[Heat Stress: Staying Healthy, Working Safely - W1072S \(14 min.\) SPANISH](#)

[Heat Stress: The Facts - SS1007IS \(12 min.\) SPANISH](#)

Price: \$245.00

More illnesses are surfacing from employees working in abnormally high temperatures, such as in a hot warehouse or warm assembly environment. This video discusses heat stroke, heat stress, fainting, and precautions to take when working in a hot environment.

[PPE Refresher \(Employee\) - A4931 \(4 mins\)](#)

Price: \$245.00

Most workplaces require at least some level of personal protective equipment, or PPE. PPE is designed to protect employees from potential hazards. It's the last line of defense against injuries when something goes wrong. But PPE doesn't do a bit of good unless we know how to use it and when to use it.

[PPE Refresher \(Supervisor\) - A4932E \(5 mins\)](#)

Price: \$245.00

Most workplaces require at least some level of personal protective equipment or PPE. PPE is designed to protect employees from potential hazards. It's the last line of defense against injuries when something goes wrong. But while employees may know the benefits of PPE, it can sometimes be difficult to get them to wear it. That's why, as a supervisor, it's important that you encourage employees to make the right choice and wear the proper equipment. How can you do that? Get them to understand that you truly care about their health and safety. Remind them that they're valuable both to the company and to their families and that their PPE is there to protect them.

Video Catalog

[PPE: Basic Training - SS1028BS \(12 mins.\) Spanish](#)

Price: \$245.00

PPE:Basic Training is just that, the Basics. Viewers will learn the basic purposes of each type of PPE and what hazards the PPE protects them against. Personal Responsibility to wear the PPE is stressed as is wearing the proper PPE for the proper task. Topics include: Footwear, Gloves, Eye Protection, Head Protection, Respirators and more. A great way to train new employees or open a discussion with experienced workers.

[PPE: Basic Training - SS1028BE \(12 mins\)](#)

[PPE: It's Your Call - SS1021BE \(12 min.\)](#)

Price: \$245.00

This all-new title addresses the most important part of Personal Protective Equipment: The responsibility of the individual to wear the equipment when it's required. All the procedures and equipment in the world are useless if employees do not understand this one simple fact.

[PPE: It's Your Call - Spanish - 1021BS](#)

Price: \$245.00

This all-new title addresses the most important part of Personal Protective Equipment: The responsibility of the individual to wear the equipment when it's required. All the procedures and equipment in the world are useless if employees do not understand this one simple fact.

[Preventing Hypothermia - SS1035IE \(14 mins\) \[English Only\]](#)

Price: \$245.00

Hypothermia can be a serious health problem. This film covers all aspects of prevention and treatment. A great program for anyone who works, lives or travels to locations with harsh winter conditions.

[Respiratory Protection & Safety - M275 \(22 mins\)](#)

Price: \$245.00

MARCOM's Video On Demand (VOD) program on Respiratory Protection and Safety provides employees with important information needed in order to understand the risks associated with airborne contaminants and helps facilities in complying with requirements of the OSHA Respiratory Standard. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or

tablet computer.

[Respiratory Protection: The Facts - SS1030BE \(17 mins\)](#)

Price: \$245.00

Sometimes it is difficult to respect a hazard you can't see or one that may take years to affect you. Respirators can provide protection, but only if they are worn and used properly. Respiratory Protection creates an awareness and respect for the hazards by demonstrating with highly effective graphics how the respiratory system works and the effects of different airborne hazards. The program covers proper use, care and maintenance of air-purifying respirators and the importance of proper selection and fit. Respiratory Protection will educate and motivate your worker on when and how to properly use their air-purifying respirator.

[Respiratory Protection: The Facts - SS1030BS \(18 mins\) Spanish](#)

Price: \$245.00

Sometimes it is difficult to respect a hazard you can't see or one that may take years to affect you. Respirators can provide protection, but only if they are worn and used properly. Respiratory Protection creates an awareness and respect for the hazards by demonstrating with highly effective graphics how the respiratory system works and the effects of different airborne hazards. The program covers proper use, care and maintenance of air-purifying respirators and the importance of proper selection and fit. Respiratory Protection will educate and motivate your worker on when and how to properly use their air-purifying respirator.

[Surviving The Fall: Proper Use Of Your Personal Fall Arrest System - E4731E \(11 mins\)](#)

Price: \$245.00

Falling just a short distance can generate huge forces and cause injury, even if you don't hit the ground. The proper use of fall protection equipment reduces these forces and prevents injuries. In this program, viewers will see fall protection equipment deployed in actual fall events and learn the proper selection and use of these devices. In addition to safe work practices, such as 100 percent tie-off techniques, emphasis is placed on having a rescue plan in place should a fall occur.

[To The Point About: Bloodborne Pathogens - ETP01 \(13 mins.\)](#)

Price: \$245.00

Our workplace is full of hazards, hazards that can hurt us or kill us. Controlling these hazards and preventing injuries or illnesses is the point of our safety and health program. One such hazard is the one presented by bloodborne pathogens. Bloodborne pathogens are tiny microorganisms found in human blood or other bodily fluids that can cause diseases in humans. Controlling our exposure to bloodborne pathogens can prevent these diseases and save lives. That is the point of our facility's Bloodborne Pathogens Exposure Control Program and that is the point of this program. Topics include the exposure control plan, occupational exposure, routes of entry, universal precautions, use of barrier devices, safe handling of potentially infectious material, decontaminating a potentially infected work area and how to respond to an exposure.

[Knife Safety / Cut Prevention - SS11010AE \(6 Min.\)](#)

Price: \$245.00

Cuts are common injuries but they are preventable. Employees will learn how to safely work with knives and proper cutting techniques which will minimize risks when working with knives and other sharp items.

[Preventing Work Related Burns In Restaurants - SS6026AE \(10 min.\)](#)

Price: \$245.00

Preventing Work-Related Burn Injury In Restaurants - The Food Service Industry experiences the highest number of burns of any employment sector, about 12,000 each year. The Industry employs approximately 6.5 million workers in the United States each year. This Industry also comprises one of the largest groups of workers injured on the job in the United States. These injuries and illnesses are costly and damaging, both for the employee and for the individual restaurant owner. Job injuries and illnesses contribute to absenteeism, light duty assignments or other work restrictions, high turnover, and higher workers' compensation costs. Common injuries in restaurants include burns, lacerations, and sprains and strains.

[Preventing Workplace Violence in a Restaurant - SS6036AE \(11 mins.\)](#)

Price: \$245.00

Preventing Workplace Violence shows employees how to recognize the warning signs of possible violent behavior, as well as how to avoid or defuse potentially dangerous situations. One out of every six violent crimes occurs in the workplace. And while workplace homicides grab the headlines... (homicide is the second leading cause of death on the job and the number one killer of women in the workplace)... other forms of workplace violence happen much more frequently. No organization, regardless of its size or type, is immune to workplace violence.

Video Catalog

139

Areas covered in the course include the nature of workplace violence, underlying causes and warning signs, aggressive behavior, threats and verbal abuse, sexual harassment, physical assault and armed assailants, fostering a positive workplace environment, and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

[Restaurant Injury Prevention - SS6029AE \(16 min.\)](#)

Price: \$245.00

Restaurants are busy places with a wide variety of potential hazards. This video examines some of the more common hazards and discusses choices workers can make to protect themselves and co-workers. Topics include: Strains/sprains/bruises and fractures, cuts/lacerations and punctures, burns and scalds. Safety tips for kitchen staff, servers/bus people, bar staff and dishwashers are discussed.

This video will help all Mandated Reporters learn: Definitions of abuse How to recognize abuse Procedures for reporting abuse Liability for failure to report abuse And legal protections for reporters

[Garage/Repair Shop Safety - SS7022AE \(15 minutes\)](#)

Price: \$245.00

The repair shop has just about every hazard you can imagine due to the wide variety of work that's performed there. This video is great for informing new employees what to expect and also for experienced employees to remind them of the many hazards they face and the steps they can take to prevent injury. Topics Include: PPE, Electrical Safety, Chemical Safety and Back Injury Prevention but it contains a wealth of information from around the shop.

[Janitorial Safety - 15000A \(13 min.\)](#)

Price: \$245.00

Video Catalog

Janitorial workers have many, many responsibilities. It would probably be easier to talk about what they DON'T do than what you do on a daily basis. But, regardless of how many different tasks they perform or how busy they are, safety should be the top priority. It's simply this. That's what this program is all about, examining common hazards janitorial staff face on a daily basis and the steps they can take to minimize risk. Topics include: Personal Protective Equipment, PPE, Back Injury Prevention, Bloodborne Pathogens, Slips, Trips and Falls, Electrical Safety and Chemicals.

Janitorial Safety - 15000A (13 min.) SPANISH

Price: \$245.00

Pre-Trip Inspection: School Bus - SS7023AE (17 min.)

Price: \$245.00

Nothing is more important to the safety of your passengers than a quality pre-trip inspection. All too often, drivers just do a quick once-over, check the boxes and get in and drive. This can have tragic consequences. While the video doesn't cover every single item that must be inspected, it does stress the importance of performing comprehensive, conscientious inspections every day. It also explains the reasoning behind some of the more common items all drivers must inspect.

Restaurant: Hazard Communications - SS6005AE (11 min.)

Price: \$245.00

Everyone is required to receive hazard communications training. This program meets OSHA/EPA standards for hazard communications. Deals with hazardous materials in the restaurant environment, chemical labels, and material safety data sheets.

Safe Food Handling - SS6027AS (23 min.) SPANISH

According to the CDC, every year in the US, 48 million people are infected with a food borne illness, 128,000 are hospitalized and 3,000 people die. Nobody wants this to happen; and, it doesn't have to. Foodborne illnesses can be prevented.

Safe Food Handling - SS6027AE (23 min.)

According to the CDC, every year in the US, 48 million people are infected with a food borne illness, 128,000 are hospitalized and 3,000 people die. Nobody wants this to happen; and, it doesn't have to. Foodborne illnesses can be prevented. The first step is education. This

Video Catalog

program provides basic, introductory instruction on the six major elements of food handler safety: Food-borne illnesses Time and temperature control Personal hygiene Preventing contamination Cleaning and sanitizing equipment and utensils and Housekeeping and maintenance. Other topics include temperature control, preventing cross-contamination. This is a great program for both new and experienced staff.

School Bus Inspection - SS7016AE (9 mins)

Price: \$245.00

School Bus Safety (Elementary School Students) - Every year children are hurt while riding on a school bus. This video provides a basic review stressing the importance of safety on the school bus. Topics covered in this safety video include: follow your teacher's instructions, waiting for the bus, follow your bus driver's instructions, never put your body (hands, arms, or head) out of any bus window, and getting off the bus.

School Bus Safety For Parents And Teachers - SS7011AE (12 mins.)

Price: \$245.00

This training program is designed for parents and teachers of small children who ride school bus or other transportation vehicles. Small children listen and understand more from their parents and teachers than they would from a video training program. We've also learned from experience that bus drivers are very well trained and know the rules, but the greatest cause for concern is that small children do not have the knowledge or training in safety measures to take around transportation vehicles. Topics covered in this safety video include: Safe and danger zones Basic safety tips On the bus safety And crossing in front of the bus

Suspensions And Expulsions - SS7020AE (18 mins)

Price: \$245.00

The program outlines exactly what violations and misconduct will lead to disciplinary action and what forms this disciplinary action may take. Real students who have been suspended and expelled give their true stories which vividly depict the consequences of not following school rules. Topics include: Theft Weapons Dangerous Behavior Drugs Sexual Misconduct Poor Grades After viewing this program students will have a better idea of what is expected of them in school.

Working with Special Needs Children - SS7026AE (11 min)

Price: \$245.00

Working with Special Needs Children - 7026A (11 min) Working with children that have special needs...it's a unique job, an important job. There are a lot of people depending on you, not just the kids. But, the kids are why you're here, right? Right. Part of your job is safety. The safety of your kids and your own personal safety. Isn't a safe environment what we want for everyone? In this program we'll cover a few common safety-related issues and discuss ways you can minimize or reduce risk. Safety is everyone's responsibility.

Solid Waste

[Solid Waste: Commercial Pickup - SS10036AE \(10 min.\)](#)

Price: \$245.00

Roll-Off trucks are specialized equipment that require specialized techniques and procedures to operate safely.

[Solid Waste: Commercial Pickup - SS10036AS \(10 min.\) SPANISH](#)

Price: \$245.00

Roll-Off trucks are specialized equipment that require specialized techniques and procedures to operate safely.

[Solid Waste: Hazard Communications - SS10031AS \(10 min.\) SPANISH](#)

Price: \$245.00

[Solid Waste: Lockout Tagout - SS10035AE \(13 min.\)](#)

Price: \$245.00

In most industries it is as simple as turning off the power and installing a lock to prevent the power from being turned back on. In the solid waste industry the purpose is the same, protecting employees, but the energy sources we need to control aren't usually controlled by just a circuit breaker. This program takes a detailed look about how to properly lock and block trash hauling vehicles during maintenance and clean out operations.

[Solid Waste: Pre-Trip Inspection - SS10032AE \(10 min.\)](#)

Price: \$245.00

The trucks and equipment your company operates are great pieces of equipment. They're versatile. They're powerful. And, they have to be inspected. A proper inspection protects workers and those working around them by ensuring that the equipment they are using is mechanically safe. And that's what this video is all about how...to perform a thorough, consistent and accurate pre-shift inspection.

[Stormwater Pollution Prevention Plan General Awareness Training - E2987E](#)

Video Catalog

(13 min)

Price: \$245.00

When stormwater flows through chemical storage areas, areas of outside industrial activity, waste management areas and similar areas, it can pick up debris such as chemicals, fertilizers, fecal bacteria, pollutants and other hazardous materials. This now-contaminated stormwater can then flow untreated directly into nearby bodies of water used for swimming, drinking, recreation and farming. Pollution spread by contaminated stormwater is a real problem and the purpose of this program is to provide workers with a basic understanding of the company's Stormwater Pollution Prevention Plan. Also stressed is the point that all employees should be familiar with their responsibilities in controlling stormwater pollution and responding to leaks and spills of potential pollutants.

Trucking and Transportation

[Coupling & Uncoupling Tractor/Trailers - SS17030AE \(5 mins\)](#)

Price: \$245.00

The coupling/uncoupling process is a routine operation. But, if not performed safely and correctly, you, your truck and those driving around you are all put at risk. This video shows, in an easy to understand, step-by-step manner, exactly how to safely couple and uncouple your tractor trailer.

[Delivery Truck Safety - SS17013AE \(12 min.\)](#)

Price: \$245.00

Driving a delivery truck safely has its hazards but being informed about certain aspects of the job will help keep you safe. The material covered in this program goes beyond just safe driving. This program addresses Safe Lifting which is not only a part of a Delivery Driver's job, but essential to their health and well-being. Program also addresses Pre-trip inspection, distracted driving, driving in bad weather are also addressed. This is an excellent program for anyone in the delivery business, new or experienced!

[DOT HAZMAT General Awareness - M173S \(19 mins.\) Spanish](#)

Price: \$245.00

DOT HAZMAT General Awareness focuses on employees who handle as well as transport hazardous materials. The course reviews a number of topics aimed at making employees more aware of situations in which they may encounter hazardous chemicals... and the nature of the hazards associated with the chemicals. Created specifically for the Department of Transportation's HAZMAT training regulation on Handling and Transporting Hazardous Materials, this course provides the information necessary to comply with the regulation's General Awareness training requirement. (While this course can be used by itself, it can also be used as a companion product to MARCOM's DOT HAZMAT Safety Training course). Areas covered in the course include the regulation itself, hazardous materials, definitions and classes, hazard communication, hazard indicators, such as labels, shipping papers and placards, where hazardous materials may be encountered, packaging and shipping, transport (trucks, ships, rail, etc.), storage, security issues and more.

Video Catalog

[DOT HAZMAT Safety Training - M174E \(21 mins\)](#)

Price: \$245.00

DOT HAZMAT Safety Training focuses on employees who handle as well as transport hazardous materials. Created specifically for the Department of Transportation's HAZMAT Training regulation on Handling and Transporting Hazardous Materials, this course provides the Safety Training required by the regulation. The course makes employees aware of the hazards associated with the materials they handle... and shows them how to work with these materials safely. Areas covered in the course include the regulation itself, hazardous materials that employees may encounter, hazard indicators such as labels, shipping papers and placards, the use of personal protective equipment, proper handling procedures, methods and procedures for avoiding accidents, accidents/emergencies involving hazardous materials, spills and cleanup procedures, and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

Video Catalog

extreme weather conditions. As you drive through challenging weather conditions, proceed slowly and cautiously. Discusses several types of conditions you might encounter while driving in heavy snow, black ice, poor visibility, construction and night driving. Provides suggestions to help you avoid an accident.

[FMCSA: Know The Facts - SS17033AE \(11 mins\)](#)

Price: \$245.00

The goal of the Motor Carrier Safety Improvement Act, enacted by the FMCSA, or Federal Motor carrier Safety Administration, is CSA; Compliance, Safety and Accountability. This video will help drivers and the companies they work for the criteria and guidelines of CSA and what they must do to remain in compliance and avoid sanctions and penalties.

[Handling Hazardous Materials - M180E](#)

Price: \$245.00

Handling Hazardous Materials is designed to help facilities comply with OSHA's HAZWOPER regulation (29 CFR 1910.120). As part of these regulations, there are varying requirements for employee training, depending on an employee's specific level of involvement with hazardous materials. Hazardous materials and waste are part of many work situations, and can be found on many types of job sites. It is so important that employees know how to recognize these potentially dangerous substances, as well as how to handle and dispose of them properly, that OSHA mandates that anyone working with these substances receive comprehensive training in this area. The course is designed to explain the regulations and to help employees begin to reduce or eliminate potential exposure to Hazardous Materials in their work environments. The course discusses the nature and behavior of hazardous chemicals, and how to reduce or eliminate potential exposure to hazardous materials in their work environments. Areas covered in the course include physical hazards, flammables/combustibles/explosives/oxidizers, corrosives and irritants, toxic substances and carcinogens, acute and chronic health effects, GHS container labels and SDSs, basic first aid for injuries caused by chemicals, emergency response, spillage / leakage / accident procedures, and more! This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

[Hazardous Materials Labels - M210E](#)

Price: \$245.00

Hazardous Materials Labels is designed to help employees understand the characteristics of different labeling systems and the ways that each convey information. By recognizing the differences and similarities of these systems, employees will be better prepared to work safely around hazardous materials. One important method for identifying hazardous materials is through the use of container labels. From bottles and drums to trucks and railcars, labels and placards provide information about the contents of a container, as well as what to do and who to call in case of an emergency. Because this information is so critical for the safe handling and transporting of these potentially dangerous substances, several organizations have developed labeling and placarding systems to communicate to employees about a container's contents. Areas covered in the course include OSHA's hazard communication standard, types of containers requiring labels, information required on labels, Department of Transportation (DOT) hazardous material classifications, DOT label and placard requirements, United Nations identification numbers, the Hazardous Materials Identification System (HMIS), the National Fire Prevention Association (NFPA) labeling system, hazardous waste labeling, and more. This VOD program is one of the most effective and efficient ways to get employees the training that they need, in a classroom or individually through their desktop or tablet computer.

Winter Safety Series

[Cold Stress - AP4655E \(8 mins\) \[English Only\]](#)

Price: \$245.00

Anyone who works outside on a regular basis knows - at some point or another - you're going to experience cold and wet weather conditions. These working conditions can threaten your ability to do your job safely, as cold can have negative effects on the body. This is known as cold stress. Cold and wet weather can begin to have negative affects on the body in temperatures as high as 59 degrees Fahrenheit. This safety video helps employees understand and recognize, why it's important to keep an eye our for the effects of cold stress. Topics Include: Hypothermia Symptoms and Prevention Frostbite Symptoms and Treatment Trench Foot Treatment

[Preventing Hypothermia - SS1035IE \(14 mins\) \[English Only\]](#)

Price: \$245.00

Hypothermia can be a serious health problem. This film covers all aspects of prevention and treatment. A great program for anyone who works, lives or travels to locations with harsh winter conditions.

[Preventing Slips, Trips & Falls for Ski Area Employees - SS1004JE \(8 min\)](#)

Price: \$245.00

Ski Areas...snow ...ice...water...slippery surfaces...they increase the potential for a slip, trip or fall. But does this mean a slip, Trip or fall HAS to happen? Of course not. Slips, trips and Falls are preventable and that's what this program is all about...prevention. The program examines some common slip, trip and fall accidents common to ski areas and examines the root causes of each.

[Professional Skiing and Riding for Ski Area Employees - SS1003JE \(7 min\)](#)

Price: \$245.00

In a ski area, sometimes people forget about safety. But safety must remain in the forefront of everyone's mind. This video outlines some of the most common hazards on the mountain and details actions that can be taken to help minimize the risk to guests and employees alike. This is a great program for beginners and an even better program for experienced professionals who think they know it all!

[Safe Lifting and Carrying Techniques for Ski Area Employees - SS1001JE \(4 min\)](#)

Price: \$245.00

Lifting...carrying...we do it all the time. Sometimes it's something simple as a piece of paper off the ground...other times it's something heavy like a fallen skier. They both have one thing

in common, they can injure your back if not performed properly. But the good news is, they can all be performed properly, and if you do, you shouldn't experience any discomfort, pain or debilitating injuries. Yes, there's a safe way to lift anything and this program shows you how.

[Safe Operation Of Snowmobiles - SS1005JE](#)

Price: \$245.00

Snowmobiles are versatile machines in use at just about every winter resort. They are also potentially dangerous, especially when operated near skiers, regardless of experience level. This video takes a look at some basic safe operating procedures and provides some common sense tips about how to prevent accidents and injuries.

[Safe Walking In Hazardous Conditions - Spanish - SS1077IS \(8 min.\)](#)

Price: \$245.00

Walking, seems easy enough right? It is. But, in certain conditions, such as snow or ice, extra precautions must be taken. This video outlines not only the importance of proper footwear, but many different scenarios that workers and pedestrians face in winter conditions Black Ice, packed snow, slush they all have different characteristics and this video will demonstrate how to walk safely in each of them. Getting in and out of vehicles safely and going up and down wet or slippery stairs are also addressed.

[Safe Walking In Hazardous Conditions - SS1077IE \(8 Min.\)](#)

[Situational Awareness at the Ski Resort - SS1002JE \(5 min\)](#)

Price: \$245.00

Situational Awareness...it's the key to safety...anywhere. In a factory...in a hotel...on the road and at a ski resort. This video stresses personal responsibility for accident prevention and teaches the system Observe, Decide, Act as the basis for correcting hazards.

[Snowplow Safety - SS1006JE \(11 min\)](#)

Price: \$245.00

This program discusses how to safely operate Snowplows so operators can safely complete their tasks. Although they seem easy to use, they can be very dangerous when used by untrained drivers. Topics include: Pre operational inspection Obeying local, state, and federal laws Marking and flagging

Video Catalog

[Winter Driving - AP3263E \(16 min\)](#)

Price: \$245.00

This attention grabbing safety video dramatically illustrates the importance of adjusting our driving techniques when winter rolls around. Aurora's famous Larry character also appears in this video making one winter driving mistake after another; mistakes we can all learn from. When the Rules Change also includes a powerful interview with a woman who was involved in fatal wintertime crash - an event that changed her life forever. The video addresses: * Vehicle preparation for winter * Adjusting schedules for winter driving conditions * Maintaining good visibility * Winter driving techniques, including intersections, cornering, skid control, braking and slowing down * Winter survival supplies and techniques

[Winter Driving Hazards - English - W1076](#)

Price: \$245.00

Winter weather is driving full of treacherous hazards including, ice, poor visibility, winds, snow, rain and more. Each weather condition and the risks involved with driving in each specific condition are discussed. Viewers will learn how to prevent unsafe incidents, starting with awareness, and how to generally stay safe despite the imminent dangers that every driver must face in the cold months.

[Winter Walking Staying On Your Feet - AP4371E \(10 mins\) \[English Only\]](#)

Price: \$245.00

[Working Safely In Cold Weather - SS1071IE \(8 min\)](#)

Working safely in cold weather requires more than just the right clothing. This presentation provides viewers with detailed information on how to safely work in cold weather conditions. It will explain how the systems of the body work in cold conditions, how to spot frostbite and other cold-related illness, as well as how to properly dress and work in the cold months. Prevention is emphasized as viewers are shown signs of distress to look for in themselves and co-workers and how to safely handle such situations.
